Is there any possibility of bringing pressurized irrigation to the foothills? Currently, we have no option but to use treated, drinkable water that is very expensive. Attached is my bill for 7/7/11 - 9/6/11 for \$504⁴⁵!! I plan to try to cut my consumption in half next year by removing trees from my backyard and researching the feasibility of drip irrigation. My two coworkers who live in other areas both have irrigation water for their lawns & pay almost nothing (\$10?) for this water source.

At this rate, the "City of Trees" ~~is~~ may one day be called the "City of Weeds!"

Please describe your comment briefly:

I heard that United Water wants to raise rates \$6.00 a month in Boise. I feel this is a very excessive increase. That is \$72.00 more a year. As a senior citizen this increase will be hard on me.
