Dear Secretary Jean Jewell,

I am writing regarding the agreement between United Water and the Brian Subdivision Water Users Association "*Agreement for Connection and Transfer of Water Systems Between United Water Idaho Inc. and Brian Subdivision Water Users Association, Inc.*"

**I reside in the Brian Subdivision and am writing to encourage that the Idaho Public Utilities Commission quickly approve this agreement.**

The first phase of this work must be done when the irrigation canals are dry. Please approve this agreement soon, so that work may commence this fall. If the decision is delayed, it could easily be another year before we could receive clean drinking water to our homes in the Brian Subdivision.

Our Water Users Association board of directors has been working diligently with United Water to develop this agreement. Almost a year ago, our community approved the decision to connect with United Water.

As a pregnant mother, I'm very concerned about any future delays in securing clean drinking water. Please approve this agreement.

Sincerely,

Jennifer Miller

Jean Jewell, Secretary  
Idaho Public Utilities Commission  
472 W. Washington  
Boise, ID. 834702

I live in Brian Subdivision and there is currently a request with the PUC and United Water for them to furnish water through our system because of excess nitrates found in our water which is furnished by Brian Subdivision Water Users Association, Inc. water company.

I strongly suggest that this request be approved so that we can move forward on having United Water take over the system in order that we may again have drinkable water. The current situation is having a negative effect on our property values as well as making difficult our daily lives.

Thank you for your assistance in this urgent matter.

  
DAVID W. TYLER
