DEFINITIONS

Access Line

A line between a central office and a customer's premises which includes a standard network interface (SNI) and which provides access to local and toll calling.

Access Line Installation Charge

A nonrecurring charge made to cover all or a portion of the cost associated with the installation of telephone access line.

Air Line Mileage

The shortest distance between the points involved.

Applicant

A person or other legal entity who (1) applies for service with a utility or (2) reapplies for service at a new or existing location after service has been discontinued for more than 20 days.

Automatic Dialing and Announcement Device, (ADAD)

A device that can be programmed to dial telephone numbers, randomly or in a predetermined sequence, and play a recorded message when a call is answered.

Base Rate Area

A specific area within any exchange service area as set forth in the tariff map. Local exchange service within this area is furnished at uniform rates without extra mileage charges. (See Special Rate Area.)

Billing Date

The latest of:

- 1. Date stated on the billing
- 2. Date billing was placed in the mail

Building

A structure under one roof, or two or more structures under separate roofs but connected by enclosed passageways, not crossing a public thoroughfare other than an alley, in which telephone wires or cables may be safely run. Pipes and conduits are not considered enclosed passageways.

DEFINITIONS

Business Service

Exchange service furnished to customers whose actual or obvious use of the service is for conducting a business, trade, or profession. Includes political accounts.

Call Forwarding

A function which allows incoming calls to be advanced to another telephone number. The number the calls are advanced to may be changed as required by the customer.

Call Waiting

A tone provided to the party using the telephone to indicate another call is waiting on the line. Successive transfers between calling parties can be accomplished through hookswitch operation.

Central Office

A switching unit in a telephone system which provides service to the general public via equipment and operating arrangements for terminating and interconnecting customer lines and trunks.

Central Office Connecting Facility

A facility furnished to an interexchange common carrier by the Company between the terminal location of the interexchange and a point of connection on the Company premises for intra or interstate use.

Channel

A path for communication or signaling between two or more locations which provides service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting customer lines and trunks.

Class of Service

The various categories of service generally available to the customers: business, residence, public, and semi-public.

Client

A caller to an Information Delivery Service number is a Information provider.

Combination Main Service

This service provides for serving separate business and residence locations from the same one-party line with separate rings for each location.

DEFINITIONS

Commerce Number

(See Interexchange Receiving Service.)

Commission

Idaho Public Utilities Commission.

Communications System

A combination of equipment and facilities which fulfills the communication requirements of a customer.

Companion Service

(See Combination Main Service.)

Company

Name of Company, (specify).

Connection Charge

(See Access Line Installation Charge.)

Contiguous Exchanges

Two exchanges whose boundaries adjoin.

Continuous Property

Property owned or leased and occupied by a customer, which is not separated by public thoroughfare or by property occupied by others.

Contract

The service application-agreement between a customer and the Company under which service and/or facilities are furnished in accordance with the provisions of applicable tariffs and under special conditions, not found in the tariffs.

Cost

The actual cost of material, labor, and incidentals, plus a charge for administration.

Custom Calling Features

A term describing special features provided from specially equipped central offices. These can include call forwarding, call waiting, speed calling, and three-way calling.

DEFINITIONS

Customer

A person or legal entity who has applied for, been accepted, and is currently receiving service.

Customer Premises Equipment, (CPE)

Telecommunication devices, equipment, and associated wiring located on the customer's side of the protector/standard network interface.

Customer Premises Inside Wiring, (CPIW)

Wire for telecommunications purposes which is on the customers premises. Customer Premises Inside Wire begins on the customer's side of the standard network interface (SNI).

Customer Provided Pay Telephone Service (PAL)

Pay telephone service provided through an instrument owned by the customer.

Date of Presentation

The date a bill or notice is mailed with first class postage prepaid, in a sealed envelope properly addressed to the customer, or if not mailed, the date that the bill or notice is presented to the customer by a representative of the Company.

Demarcation Point

(See Standard Network Interface, SNI.)

Deposit

A cash payment made by the customer to establish or reestablish credit with the Company.

Direct Electrical Connection

Denotes a physical connection of the electrical conductors in the communications path.

Directory Listings

Essential information in the telephone directory or information records of the Company whereby telephone users may ascertain the telephone number of a listed customer.

Drop Wire

Wires between on open wire lead, aerial, or underground cable terminal and the point of entrance to the building in which the customer's telephone service is located.

DEFINITIONS

End User

A client of an interexchange carrier taking services offered in combination with telephone companies and other carriers.

Exchange Access Service

A specified area established for the furnishing of communication service. It usually embraces a city, town, village, or unincorporated community and surrounding area and may consist of one or more central offices together with the associated plant used in furnishing service within that area.

Exchange Service

(See Local Service.)

Extended Area Service, (EAS)

Interexchange telephone service furnished at flat or measured rates between one or more exchanges.

Facilities

Supplemental equipment, apparatus, poles, cables, and other materials and mechanisms necessary to, or furnished in connection with, telephone service.

Flat Rate Service

Service furnished at a fixed monthly rate.

Foreign Exchange Directory Listing

An alphabetical listing in the directory of an exchange other than the exchange in which a customer is furnished local service.

Foreign Exchange Service

Exchange service furnished to a customer from a central office located in an exchange other than that in which the customer's primary station is located, or off-premises station service furnished a customer in an exchange other than that in which the customer's primary station is located, (a grandfathered service).

Grade of Service

Refers to the number of parties served on a telephone line. For example: one-party, two-party, four-party, multi-party, etc.

DEFINITIONS

Grandfathered Equipment

Equipment classified by the Federal Communications Commission as having been directly connected to the network by a telephone company. Its use may be continued as long as the equipment remains serviceable and the circuitry is not revised.

Grandfathered Service

A service that is no longer available to new customers.

Individual Line Service

(See One-Party Service.)

Information Provider

A person or company, unaffiliated with the company, that provides announcements or interactive programs.

Inside Wire

(See Customer Premises Inside Wire.)

Installation Charge

(See Access Line Installation Charge.)

Interactive Programs

A program or service whereby a caller, once connected to an information provider's announcement machine, can through the use of a Touch Call pad or similar device, access more specific or individualized announcement information.

Interconnection

(See Connecting Arrangement.)

Interexchange Carrier

Any individual or special groups engaged for hire in interstate, intrastate inter-LATA, or foreign communication with or without wires. Services are normally provided to end users.

Interexchange Receiving Service

A combination of exchange and toll service, whereby a business customer in one exchange may arrange to receive calls placed to a special number by customers from another exchange.

DEFINITIONS

Interexchange Service

Communication service between two exchanges.

Interexchange Toll Carrier

A competitive interexchange toll provider.

Joint User

An individual or concern authorized by the Company and the customer to share in the use of the customer's business telephone service.

Line Connection

Installation of facilities provided by the Company for a circuit from the central office to the standard network interface, inclusive.

Line Extension

The outside plant required in addition to existing facilities to render telephone service.

Line Transfer Service, (Subscriber Transfer Service)

A service provided by equipment in a central office, controlled by operating a key or switch at the customer's station which transfers incoming calls to another designated line.

Link-Up America

Link-Up America is a national consumer education and outreach program designed to promote universal service to low income households and to bring those who do not have service onto the telephone network.

Local Exchange

The area within the boundaries of exchange maps filed with and approved by the Idaho Public Utilities Commission.

Local Measured Service

(See Measured Service.)

DEFINITIONS

Local Message

A message not subject to toll charges.

Local Private Line

A non-switched line located wholly within an exchange, furnished for the customer's own use for communication or signaling between points on that line.

Local Service and Local Service Area

Telephone service furnished between customer's premises within the same local service area and the area within which telephone service is furnished under a specific schedule of rates.

Measured Service

A local service for which charges may be based upon: frequency, time-of-day, duration, and distance.

Message

A completed customer telephone call.

Mileage Rate

Charges in addition to the access line charge. A recurring charge based on distance measurements as provided in tariff. (See also Zone.)

Minimum Contract Period

The minimum length of time for which a customer is obligated to pay for service, facilities, and equipment, whether or not retained by the customer for such minimum length of time.

Multi-Party Service

Party line service, other than one-party service.

Network Interface

The points of common termination of company-provided and customer-provided facilities. Sometimes referred to as the standard network interface (SNI).

Nine-One-One Service (9-1-1)

A nationwide emergency telephone number that provides citizen access to emergency fire, medical, and police assistance.

DEFINITIONS

Non-contiguous Exchanges

Two exchanges whose boundaries do not adjoin.

Non-listed Service

An arrangement whereby a customer's number is omitted from the telephone directory but not from the information records, at the customer's request.

Non-published Service

An arrangement whereby a customer's listing is omitted from both the telephone directory and information records at the customer's request.

Nonrecurring Charge, (NRC)

A one-time charge covering installation, move, or change of facilities accomplished at customer request.

Off-Premises Extensions

The wire facility used in providing an off-premises access line.

One-Party Service

An access line serving only one customer.

Party Line Service

An access line serving more than one customer.

Pay Telephone Service

Public and semi-public pay telephone service provided by the telephone company.

Permanent Disconnect

A service is permanently disconnected when the customer's service has been totally discontinued.

Premises

The customer's premises will include a building or buildings occupied by one customer on continuous property.

DEFINITIONS

Private Line

A line consisting of dedicated communication channels connecting two or more locations.

Protector

(See Standard Network Interface.)

Public Access Line (PAL)

An exchange line, using a measured rate where available, to which a customer provided instrument is connected, to provide pay telephone service (PAL).

Public Telephone Service

A non-listed, non-customer exchange station installed for the convenience of the public at a location chosen or accepted by the Company.

Rate

A recurring monthly charge made in conjunction with the provisions of a service.

Registered Equipment

Denotes terminal equipment, multi-line terminating systems, and protective circuitry which comply with and have been approved within the registration provisions of Part 68 of the Federal Communications Commission Rules and Regulations.

Residence Service

A class of exchange service furnished to an individual at a residence or place of dwelling where the actual or obvious use of the service is primarily for domestic purposes.

Route Mileage

The distance measured along the route of the circuit between any two or more given points on that circuit.

Screening and Blocking

Where available, these features provide operator call screening and/or central office call blocking.

Semi-Public Telephone Service

Exchange service provided at the customer's request, and designed for use of the customer and the public at locations somewhat public in character and involving a stipulated charge for each outgoing local message.

A feature allowing a telephone user to reach frequently called numbers by abbreviated dialing.

Standard Network Interface

The points of common termination of company-provided and customer-provided facilities. Sometimes referred to as the SNI.

Suburban Area

The portion of the exchange located outside the base rate area.

Supersedure

The transfer of service, including the telephone number from one customer to another with the express written consent of both the relinquishing customer and the new customer.

Tariff

The index, definitions, rules and regulations, rates, charges, conditions of service, concurrences, and maps adopted and filed by the Company and approved by the Idaho Public Utilities Commission.

Telecommunications Service

Two way switched access and transport of voice communications.

DEFINITIONS

Temporary Disconnect

The suspension of telephone service at the request of the customer or on the initiative of the Company without permanent disconnect of service.

Temporary Service

Local service definitely known to be required for a short period, such as service provided for contractors for use during the construction of a building, sales campaigns, athletic contests, conventions, fairs, circuses, etc.

Terminal Loop

(See Off-Premises Extension.)

Termination Charge

The charge applicable when an agreement for service is terminated by the customer before the expiration of the minimum agreement period.

Three-Way Calling

A feature providing the capability to add a third party to an existing conversation.

Time and Material Charges

Time and material spent by a Company representative exclusive of work required to establish network access.

Toll

Telecommunications service between exchanges carried on the public switched network for which charges are made on a per-unit basis.

Toll Line

A line between two or more exchanges over which service is furnished on a toll message rate basis.

Toll Message

A completed call between two exchange stations located in different local service areas, between two toll stations, or between a toll station and an exchange station, for which charges are made on a per-unit basis.

DEFINITIONS

Toll Rate

The rate prescribed for toll messages based upon the duration of the message, time of day, number of calls, and distance between exchanges. (May be intrastate or interstate.)

Toll Restriction

A feature placing restrictions on interexchange calling.

Toll Service

Telephone service between exchanges or locations for which a toll rate is charged.

Touch Calling. (Tone Dialing, Touchtone, U-Touch, Dual Tone Multi. Freq.)

Where central office facilities are available, a type of high-speed address signaling (dialing) in which buttons in a bank of twelve can be depressed to give one of a group of audio tone pairs for signaling directly over the circuit.

Trunk Line

A telephone circuit between two central offices or between a private branch exchange and a company central office.

Type of Service

Refers to flat rate service, measured service, or toll service.

Zone

Designated areas within an exchange embracing customer groups having relatively equivalent service costs. (See Special Rate Area.)

GENERAL REGULATIONS

Per. C.N. 23099
Theresa J. Stalter SECRETARY

APPLICATION OF REGULATIONS

The regulations set forth herein apply to intrastate service and facilities furnished within the State of Idaho by OREGON-IDAHO UTILITIES, INC.

Thereinafter referred to as the Company, subject to the jurisdiction of the Idaho Public Utilities Commission.

No officer, employee, or agent of the Company has authority to change, amend, or waive any rate or regulation approved or prescribed by the Idaho Public Utilities Commission. Rates and regulations may be changed or cancelled only with the consent or approval of the Idaho Public Utilities Commission.

The Company furnishes exchange, toll, and private line service throughout the territory it serves, as shown by its filed rates, regulations, and maps. The Company also furnishes toll service to the territory served by connecting companies subject to their rates and regulations.

ESTABLISHMENT OF SERVICES

Advance Payments

At the time an application for service is made, an applicant may be required to pay an amount equal to one months local service rate plus installation charges that may be applicable in addition to such special construction charges as are to be borne by the applicant.

Deposits-Residential

Before an application for service is accepted, the Company shall require establishment of credit based on its reasonable credit standards applied consistently with applicable rules of the Idaho Public Utilities Commission.

The Company adopts by reference the Rules and Regulations for All Telephone Companies Under the Jurisdiction of the Idaho Public Utilities Commission and all amendments to those rules which may be hereafter adopted by the Idaho Public Utilities Commission. Copies of these Rules and Regulations are on file in the business office and are available for public inspection.

GENERAL REGULATIONS

Deposits--Nonresidential

Nonresidential deposits may be required based on reasonable credit standards.

Interest and Deposit Records

Interest, at the rate prescribed by the Idaho Public Utilities Commission, will be paid on deposits. Interest payments will be made annually as a credit on the bill for service. Interest will be prorated when a deposit is held for less than a full year.

Upon payment of a deposit, the utility shall furnish a receipt showing the date, name of the applicant or customer, the service address, the amount of deposit, a statement that the deposit will accrue interest at the rate prescribed by the Idaho Public Utilities Commission, and an explanation of the conditions under which the deposit will be refunded.

Deposit Refund

A customer's deposit, plus accrued interest, shall be promptly refunded when service is discontinued, provided that refunds due shall first be applied to any unpaid balance on the customer's account.

The Company may continue holding a deposit until such time as credit is satisfactorily established or reestablished. After satisfactory credit has been established or reestablished, the deposit plus any accrued interest shall be promptly refunded or credited to the customer's account or a refund upon request.

Customer Billing

Bills are due when rendered unless otherwise specified on the bill and may be paid by mail, at any business office of the Company, or at any agency authorized to receive such payments. Bills become delinquent 15 days after date of presentation.

The customer is responsible for all charges for services furnished including all toll messages which have been properly billed to the customer's telephone. The customer is responsible for all third-party calls billed to the customer's number except in those situations involving fraud. In this case, the Company will pursue prosecution of the offending party. In those situations where the customer feels there has been an improper billing, an appeal may be made to the Idaho Public Utilities Commission.

Monthly recurring rates are billed in advance and toll charges are billed as accumulated. The Company shall provide detailed local charges on the customer's monthly bill.

GENERAL REGULATIONS

Customer Billing (continued)

Opening and closing bills will be prorated on the basis of a 30-day month. Exceptions are services with a specific minimum billing period.

The customer shall be given the option of designating a third party to receive bills and notices when service is initiated and once annually thereafter. Annual notice may be provided by a bill insert ("stuffer") or a separate mailing.

Adjustment of Bills

When an under or overbilling occurs, the utility shall provide written notice to the customer detailing the circumstances, period of time, and amount of adjustment. The over or undercharge shall be computed back to the date of the error if the date can be fixed. If no date can be fixed, the over or undercharge shall be computed for no more than six months' usage. In no event shall the over or underbilling be for more than three years' usage.

Refusal of Service

The Company may refuse to provide service where the following conditions exist: (a) an overdue balance has been incurred by a person at a service address, (b) an applicant for service resided at the service address during the time the overdue balance was incurred, and (c) the person who incurred the overdue balance will reside at the location to be served under the new application.

GENERAL REGULATIONS

Refusal of Service (continued)

Service can also be refused: (a) until the Company receives full payment of any overdue amount and any other obligation related to a prior account; (b) for noncompliance with state and municipal codes and regulations governing service; (c) when the Company does not have adequate facilities to render the service applied for; (d) when the service will unfavorably affect service to other customers; or (e) when the facilities of the applicant or customer are unsafe.

The Company shall notify the refused party of the reasons for refusal and their rights of appeal to the Idaho Public Utilities Commission.

Residential service cannot be denied or disconnected due to failure to pay for nonresidential service, or to meet obligations in connection with nonresidential service.

Temporary Suspension of Service

In lieu of permanent disconnection, the Company may temporarily suspend service or institute toll denial if the customer fails to pay any amounts due. Service may also be temporarily suspended for violation of any regulations governing the furnishing of telephone service. Such suspension shall not be made until at least five days following written notification to the customer of the intention to suspend service. The notice shall state that permanent disconnection will follow within 10 days unless full payment of any overdue amount or any other obligations are made. It shall be indicated on the written notice of suspension that the customer has the right to appeal the action to the Idaho Public Utilities Commission. Temporary service disconnection for nonpayment shall not take place on a day before a weekend or a state or utility recognized holiday without prior consent of the Idaho Public Utilities Commission.

Minimum Contract Period

Except as specified elsewhere in this tariff, the minimum contract period is one month from the date service or additions to service are established. The minimum charge is the established rate for one month.

GENERAL REGULATIONS

Minimum Contract Period (continued)

Where a contract for service with a one month minimum period is cancelled before establishment of the service is completed, a charge not to exceed the installation charge specified is applied if all or a portion of the facilities have been installed. No minimum or termination charge will apply in the event the service is terminated because of the condemnation, destruction, or damage to property by fire or other cause beyond the control of the customer.

Special contractual arrangements for special equipment or special assemblies of equipment are developed as required.

Termination of Service at Customer's Request

Contracts for service may be terminated prior to the expiration of the contract period provided advance notice is given to the Company and upon agreement to pay all charges due for the service furnished, plus any termination charge which might be applicable.

Termination of Service Initiated by the Company

The Company adopts by reference the Rules and Regulations for All Telephone Companies Under the Jurisdiction of the Idaho Public Utilities Commission and all amendments to those rules which may be hereafter adopted by the Idaho Public Utilities Commission. Copies of these Rules and Regulations are on file in the business office and are available for public inspection.

GENERAL REGULATIONS

Disconnection Notice

At least seven days before a utility disconnects service for nonpayment for services rendered, written notice of disconnection must be provided to the customer and the customer's designated representative, if any.

The Company adopts by reference the Rules and Regulations for All Telephone Companies Under the Jurisdiction of the Idaho Public Utilities Commission and all amendments to those rules which may be hereafter adopted by the Idaho Public Utilities Commission. Copies of these Rules and Regulations are on file in the business office and are available for public inspection.

Supersedure

A service order charge will apply where a new customer takes over the service of a former customer, provided the service is furnished at the same location without interruption and the new customer assumes all unpaid charges on the original contract. Termination charges will apply for any service furnished under the original contract which is not retained by the new customer. The act of supersedure must be accomplished in writing and must be signed by both the former and new customers indicating their understanding of the supersedure and their responsibilities.

Grandfathered Service

Grandfathered service is not available for use by a subsequent customer at the same location. Changes in class, grade or location by the customer are considered changes in service, and therefore will result in cancellation of the grandfathered service. Permanent disconnection of a grandfathered service makes that service unavailable to the disconnected customer.

GENERAL REGULATIONS

Grandfathered Service (continued)

Generally, a grandfathered service may not be superseded nor changed without loss of the particular service. Exceptions are instances where the customer dies or divorces. In these instances, a direct relative or spouse of the customer may request supersedure of the grandfathered service, except where the relative or spouse intends to move the location of the service, as explained above.

Resale of Service

The resale of any service provided by the Company is permitted only as provided elsewhere in this tariff.

Telephone Solicitation by Use of Automatic Dialing and Announcing Devices, (ADADs)

The following conditions do not apply to ADADs programmed only to call a law enforcement agency or another number in an emergency.

1. Certification to Company

- a. Before any ADAD, other than one that will be used to deliver a message in response to an emergency, may be connected to the telephone network, the potential user must certify in writing to the Company that the ADAD(s) will have the capacity to comply with the requirements of these tariff provisions and that the user will use the ADAD(s) only in compliance with these provisions.
- b. The potential user must notify the Company in writing of the intended use of the ADAD(s). The notice shall list the calendar days and clock hours during which the ADAD(s) will be used and shall estimate the message attempts per hour and the average length of completed messages.
- c. The ADAD user (customer) must notify the Company in writing within 30 days of any changes in the ADAD operation that results in either an increase or decrease in the number of message attempts per hour.

2. Connection

The ADAD must be connected to business measured lines where available, except ADADs activated only in emergencies. Where measured service is not available, non-emergency ADADs will be connected to flat rate business access lines. See Section 3, Local Service Rates.

ADVICE NO. 1

Theresa J. Staller SECRETARY

Telephone Solicitation by Use of Automatic Dialing and Announcing Devices, (continued)

3. Non-Solicitation Calls

If an ADAD is to be used only in cases in which the called party has previously consented to receive calls or consent can be inferred from the relationship between the caller and the called party, such as a dentist reminding patients of appointments or a school informing parents of student absences, then only the above tariff provisions apply to that ADAD.

4. Conditions on All Other ADADs

- a. A human operator or a recorded message, within 30 seconds of the called party answering the call, must identify the individual making the call and the entity for whom the call is being made, state the purpose and length of the call, give a telephone number at which a person can be consulted, describe in plain language the terms of any goods or services offered for sale, and inquire whether the called party is interested in listening to a recorded message.
- b. The ADAD must immediately disconnect, releasing the called party's telephone line, if the called Party gives a negative response to the inquiry. If this negative response is to be indicated by hanging up or silence, the instructions must inform the listener that an audible response of any kind will cause the recorded message to play.
- c. During the course of the solicitation, the operator or recorded message must state the total cost of the goods or services offered for sale and the number, timing, and amount of installment payments if installment payments are offered as an option.
- d. The ADAD may not be used to call unlisted, unpublished, emergency, or in-WATS (800) numbers or to call more than one number held by a called party.
- e. The ADAD may not be used before 9 a.m. nor after 9 p.m.
- f. The ADAD must disconnect and release the line when the called party is using an answering machine.

5. Enforcement

Anyone violating provisions of this tariff may be subject to appropriate enforcement action including disconnection.

Abuse or Fraudulent Use of Service

Telephone service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Service of any customer may be discontinued if use of the service is such that it constitutes fraud or abuse or may tend to injuriously affect the customers or the efficiency of the Company's plant, property, personnel or service, after the customer has been advised of that fact.

Service may be disconnected without notice when fraudulent use of service is detected.

Telephone Numbers

The customer has no property right to the telephone number nor any right to continuance of service through any particular central office of an exchange. Should the customer want to be served from a particular central office, mileage charges between the central offices within the exchange will apply on a monthly basis.

The Company reserves the right to change the customer's telephone number or the central office associated with such number, or both, as may be required for the proper conduct of its business.

Directories

The Company will furnish to its customers, without charge, such local directories as are necessary for the use of the service. Copies of other directories may be provided at a charge.

The Company is not liable for damages arising from errors in or omissions of directory listings for which there is no charge, or listings obtained from directory assistance. In the case of listings for which a charge is made, its liability shall be limited to the monthly rate for each such listing for the charge period during which the error or omission continues.

GENERAL REGULATIONS

Furnishing of Service

The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment.

Where facilities beyond those normally required are provided to satisfy customer requests, charges based on the additional costs incurred will apply.

When a customer orders installations which cannot be completed during scheduled working hours, overtime charges will apply. Such overtime charges will be the difference between straight time and overtime, and will be in addition to the normal installation, move, or change charge. The customer must agree to this provision before such overtime work will be performed.

The Company will determine the type of outside plant facilities to be provided for the furnishing of a service.

Relocation or Rearrangement of Facilities

The Company will be reimbursed for the costs associated with customer requests for relocation or rearrangement of facilities.

Maintenance and Repair

All costs associated with the maintenance and repair of services furnished by the Company will be borne by the Company except as specified elsewhere in this tariff. Cost of maintenance and repair of customer premises inside wire will be borne by the customer.

The Company will be reimbursed for any loss or damage to its facilities on the customer's premise resulting from intentional destruction, neglect, or carelessness.

Access to customer's premises, at any reasonable hour, will be given to representatives of the Company for the purpose of inspecting, repairing, testing, or removing any part of the Company's facilities.

Allowance for Interruptions

In the event of an interruption to the service, which is not due to the negligence of the customer, an allowance will be made if the interruption continues for more than 24 hours and it is reported to or detected by the Company.

The allowance will be the prorated portion of the monthly rate or monthly guarantee for the service or the portion of the service made inoperative.

Customer-Provided Equipment

The Company will be reimbursed by the customer for all time spent by Company personnel locating trouble caused by customer-provided equipment.

Where telephone service is used in connection with customer-provided terminal equipment or communications systems, the operating characteristics of such equipment or systems shall be such as not to interfere with any of the service offerings by the Company. Satisfactory performance of the telephone network requires continuing functional compatibility of the network control signals and the switching equipment involved.

Such use is subject to the further provisions that the customer-provided equipment or systems do not: endanger the safety of Company employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the telephone network or otherwise injure the public in its use of the Company's services.

Where any customer-provided equipment or system is used with telephone service in violation of any of these conditions, the Company will take such immediate action as necessary for the protection of the network and will promptly notify the customer of the violation.

Upon notice from the Company that the customer-provided equipment or system is causing or is likely to cause such hazard or interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. Customers shall be notified in advance of their responsibility for the payment of all Company charges for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or facilities.

The Company shall not be responsible for the installation, operation, or maintenance of any customer-provided terminal equipment or communications systems. The responsibility of the Company shall be limited to the furnishing, operation, and maintenance of such facilities in a manner suitable for telecommunications service. The Company shall not be responsible for signals generated by the customer-provided equipment or systems or for the quality of, defects in, or the reception of signals by customer-provided equipment or systems.

Customer-Provided Equipment (continued)

The Company shall not be responsible to the customer or otherwise if changes in the criteria contained in these conditions or in any of the facilities, operations, or procedures of the Company render any customer-provided equipment or facilities obsolete or require modification or alteration of such equipment or otherwise affect its use or performance. The customer shall be given advance notice of significant changes to enable conformance of customers' equipment to the revised service.

Customer Premises Inside Wiring, (CPIW)

Telephone wiring located on the customer's premises beginning at the standard network interface and terminating at the point of connection with terminal equipment. Work on CPIW may be performed by the customer, by a technician designated by the customer, or by the Company at the customer's request.

The connection to Company facilities will be at a standard network interface (SNI) provided by the Company. Terminal equipment will be connected to the inside wire at each location of use via a customer provided modular jack or similar device. Federal Communications Commission registered/approved equipment must be used. Use of unapproved or altered equipment can result in discontinuance of service and/or a service charge for costs to eliminate harm from the network.

Maintenance of customer provided inside wire is the responsibility of the customer unless other arrangements are made. The Company may offer, on a deregulated basis, either a monthly maintenance plan or offer to do work requested by the customer on a time and material basis.

If it is necessary for the Company to make a service call to clear a line having a fault in CPIW, a visit charge will apply.

Liability

The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing a service and not caused by the negligence of the customer, shall, in no event, exceed an amount equivalent to the proportionate rate to the customer for the period of service during which such mistake, omission, interruption, delay, or error or defect in transmission occurs.

TAX ADJUSTMENTS

City Taxes

The aggregate amount of all business or occupation taxes, license, franchise, or operating permit fees, or other similar exactions imposed on the Company by a city, which exceeds three percent of gross revenues derived from exchange service provided within the city's corporate limits, will be billed pro rata to customers whose services are located within the city's corporate limits.

Gross revenues include all local service revenues as presently defined in the Uniform System of Accounts adopted by the Federal Communications Commission, less net uncollectibles.

When the Company makes prorate charges, as herein provided, such amounts will be separately stated on the customer's regular billings.

County Taxes

In the event any county, other than a city-county, should impose upon the Company any new taxes, or license, franchise, or operating permit fees, or increase any such taxes or fees, the Company shall collect from its customers within the county imposing such taxes or fees the amount of the taxes or fees or the amount of increase in such taxes or fees provided. If the taxes or fees cover the operations of the Company in only a portion of a county, then the Company shall recover the amount of the taxes or fees or increase in the amount thereof from customers in the portion of the county which is subject to the taxes or fees. Taxes, as used here, mean sales, use, net income, gross receipts, payroll, business or occupation taxes, levies, fees, or charges other than ad valorem taxes.

The amount collected from each customer pursuant to the foregoing paragraphs shall be separately stated and identified on all customer billings.

Idaho Telecommunications Assistance Program

The Idaho Telecommunications Assistance Program provides for a credit against the recurring monthly rate for the provision of local residential service for certain low income customers.

The Idaho Telecommunications Assistance Program credit is only available to residence customers who meet eligibility requirements shown below established by House Bill No. 298.

To be considered for the telecommunications service assistance program, applicants must be the head of a household, shall be sixty (60) years of age or older and participate in the low income home energy assistance program (LIHEAP). The Department of Health and Welfare shall develop procedures for taking applications for assistance and for determining and certifying program eligibility. Such applications shall contain the disclosure of information authorization necessary to process the assistance discounts. Individuals who qualify for assistance under this chapter must be periodically recertified by the Department of Health and Welfare.

At least once each year the Department shall provide a list of names, addresses and, if applicable, telephone numbers of all eligible recipients to each local exchange telephone company. The local exchange telephone company shall determine from the list those recipients to whom the company provides service.

The credit is applicable only to the customer's principal residence line.

In connection with the Idaho Telecommunications Assistance Program, a montly surcharge will be assessed on all access lines of \$.03 for residential lines and \$.07 for business lines.

LIFELINE ASSISTANCE

1. Description

Lifeline Assistance offers a \$5.25 discount on monthly basic service rates, consisting of a waiver of the \$3.50 FCC resident subscriber line charge and an additional \$1.75 discount of the access line rate for subscribers who qualify for assistance as outlined below.

2. Qualifications

An applicant must meet all of the following criteria in order to qualify for Lifeline Assistance:

- a. The applicant must be a recipient of benefits from at least one of the following public assistance programs:
 - Medicaid
 - Food Stamps
 - Supplemental Security Income
 - Federal Public Housing Assistance
 - Low-Income Home Energy Assistance
- b. The residence premises at which service is requested is the applicant's principal place of residence.
- c. There is ONLY ONE telephone line serving the residence premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment. A room or portion of a residential premises occupied exclusively by an individual not sharing equally as a member of the domestic establishment may be considered a separate dwelling unit (premises) for the application of Lifeline Assistance.
- d. The subscriber must provide the company with immediate notification when he/she no longer qualifies to receive Lifeline Assistance. The subscriber will be required to submit to recertification on an annual basis. If at any time it is determined that the subscriber no longer qualifies to receive Lifeline Assistance, the subscriber will automatically be billed at the normal tariffed rate and will be required to pay an amount equivalent to the discount received retroactively to the time the subscriber first became ineligible to receive Lifeline Assistance.

ADDITIONAL LIFELINE AND LINK UP BENEFITS AND QUALIFICATION
REQUIREMENTS FOR FEDERALLY-DESIGNATED TRIBAL LANDS

(N)

1. Description

The following Lifeline and Link Up program benefits and qualification standards apply to all residence subscribers residing on Indian "tribal lands," as the same are from time to time defined by the Federal Communications Commission.

2. Qualifications

In addition to the qualification standards set out above for Lifeline and Link up program participants, residents of tribal lands may qualify for these programs if they participate in any one of the following federal assistance programs: Bureau of Indian Affairs general assistance; Tribally administered Temporary Assistance for needy families; Head Start (only those meeting its income qualifying standard); or National School Lunch Program's free lunch program. Those who qualify under the provisions of this paragraph must provide written certification of such qualification under penalty of perjury and must further agree to notify the Company if the customer ceases to participate in the program or programs.

3. Lifeline and Link Up Benefits

Additional federal Lifeline support will be provided to reduce the qualifying customer's basic monthly service rate to \$1.00 per month, inclusive of the federal End-User Common Line charge. Additional federal Link Up support will be provided to pay 100% of the charges between \$60.00 and \$130.00 for both service connection and line extension charges in connection with commencing telecommunications service to the qualifying customer's principal place of residence.

LOCAL ACCESS LINE RATES, (Continued)

RATES

Optional Features

Touch Calling service within the exchange areas as facilities become available (per line equipped):

Business.....	2.52
Residence.....	1.26
Rotary hunting additional charges per line arranged in rotary group.....	1.00

CONDITIONS

Local service is provided through facilities owned and maintained according to the standards of the Company. The territory served is shown on maps filed with the Commission by the Company. This territory is referred to as an exchange. Trunks, one-party, two-party, and multi-party service are provided.

The application of business or residence rates is determined by the actual or obvious use made of the service by the customer. Where only one primary station is provided at a location which is both business and residence, the business rate will apply. Flat rate service will not be installed on premises of a public or semi-public character in a location where the telephone would be accessible for use by the patrons of the customer or by the public in general.

Local service rates include the line which provides access to the central office switching equipment. Customer premises equipment (CPE) are excluded; except one telephone is included with semi-public service. Customer premises inside wire is excluded.

LOCAL SERVICE

OPTIONAL CALLING FEATURES

General Terms and Conditions

The Company offers optional calling features listed and described in this tariff that may be provided to customers along with residential and business access line service. Complete descriptions of these features together with operating instructions are available from Company Customer Service Personnel.

The terms and conditions listed in each optional feature section that are specific to those features apply to their provisioning in addition to the rules, regulations, and conditions for the provision of service specified elsewhere in this tariff.

Not all optional calling features are compatible with other services and features offered in this tariff. The Company reserves the right to restrict which features may be installed on an access line to preserve the proper operation of that line. Additionally the Company may install other features on an access line that may or may not be transparent to the customer to preserve the proper operation of that line. Optional Calling Features will not be offered where the facilities used to provide service do not support their operation.

Nonrecurring charges will be applied to an account when a customer adds optional calling features to an access line in accordance with the nonrecurring charge section of this tariff.

The listed rates for these optional calling features do not include applicable taxes and surcharges.

OPTIONAL CALLING FEATURES

CUSTOM CALLING SERVICES

Rates

	Monthly Recurring Rate	Monthly Recurring Rate
<u>Custom Calling Features</u>	<u>Residential</u>	<u>Business</u>
Call Forwarding	\$2.00	\$2.75
Call Waiting	\$2.00	\$2.75
Three-Way Calling	\$2.00	\$2.75
Speed Calling, 8 numbers	\$2.00	\$2.75
Call Forward Busy/Don't Answer	\$2.00	\$2.75

Custom Calling Features Purchased in combinations of 2, 3, 4, or 5 features

Per Feature Purchased	\$1.60	\$2.20
-----------------------	--------	--------

Conditions for Custom Calling Features

Call forwarding includes the ability of a customer to change the forward destination or telephone number from a remote location by use of a customer-designated PIN and a Company-specified access number. Dialing the call forward access number from outside the local calling area may result in a toll charge. Customers are responsible for any toll charges incurred for calls forwarded to a destination or telephone that is outside the local calling area of the forwarded telephone.

Remote Call Forwarding Service

Per each network access line equipped	\$20.00	\$20.00
---------------------------------------	---------	---------

Remote Call Forwarding Service involves the Company permanently forwarding a customer network access line to a fixed forward destination upon request of the customer. This destination may be either inside or outside the company service area. The customer has no direct control to manage the forward from his telephone or through a remote access number. Customers are responsible for any toll charges incurred for calls forwarded to a destination or telephone that is outside the local calling area of the forwarded telephone.

CLASS SERVICES

Rates

<u>Class Feature</u>	Monthly Recurring Rate <u>Residential</u>	Monthly Recurring Rate <u>Business</u>
Caller ID	\$5.00	\$7.00
Selective Call Screening	\$3.00	\$4.00

Conditions for Class Features

Caller ID allows the customer to view the telephone number of an incoming call before answering. Caller ID service includes the automatic call back and automatic recall features. Lines also equipped with call waiting will have the caller ID on call waiting feature added to preserve the operation of Caller ID with those lines.

To utilize Caller ID, customers must purchase specialized customer premises equipment that is Caller ID-equipped. The Company does not sell or service Caller ID-equipped customer premises equipment.

Selective Call Screening allows customers (a) to block calls from customer-specified numbers, (b) to block calls from callers who have blocked their Caller ID identity, and (c) to block calls from telemarketers. The callers whose calls are blocked receive a recorded announcement explaining why the call has not been completed.

Customer Originated Trace is only provided in connection with an official law enforcement investigation and is provided without charge to the customer.

Caller ID blocking capability is automatically installed without charge on each access line at the inception of service. The customer may choose either per-call or per-line blocking. If the customer does not specify, per call blocking will be provided. Nonrecurring charges will apply if the customer chooses to change the blocking type after service is initially installed. Per-line blocking is not automatically included with non-listed or non-published directory services.

 - Additional distance
- 2. Line extension on private property
 - Company provided trench or pole
 - First two-tenths of mile n/c
 - Additional distance
 - Customer provided trench or pole
 - First two-tenths of a mile n/c
 - Additional distance

DEFINITIONS

"Customer Provided poles or trench" are poles or trench previously put in place by a power or cable company, the applicant, or some other entity. The poles or trench must meet the construction standards of the Company before they will be utilized for line extension.

"Public roadway" is any roadway that is dedicated to public use and does not include roads on state or federal lands intended primarily for the use of government or private interests.

LOCAL SERVICE

LINE EXTENSION SERVICE

CONDITIONS

1. Line extensions are measured from the Company's nearest network facility and the Company shall endeavor to provide line extension at the lowest possible cost to the customer consistent with the integrity and efficiency of the telecommunications network.
2. An applicant may furnish and set the required poles or provide a trench on his/her private property in accordance with the construction standards of the Company. The ownership of all such facilities on the network side of the network interface shall be vested entirely in the Company.
3. If, in the Company's judgment, applicant or his/her contractor is competent to place wire or cable in a previously opened trench, then the Company may, but is not required to, provide such wire or cable to the applicant for such purpose. Such wire or cable is to be placed in accordance with Company procedures and standards and may be subject to inspection by the Company before the closure of the trench. This will be permitted, if at all, only on private property.
4. Under no circumstances will an applicant or his/her contractor be permitted to attach wire or cable to poles.
5. Under no circumstances will an applicant or his/her contractor be permitted to purchase wire or cable for placement on the network side of the network interface.
6. Distances mentioned in this schedule are the shortest feasible route distances. Routing of all line extensions will be determined by the Company. Where routing over private property is selected by the Company to serve general customers instead of routing on public roadways, and easements are available, the construction will be treated as being on public roadways.
7. The customer shall allow the Company free access at reasonable times to his/her premises for all work, including tree trimming, deemed necessary by the Company to maintain safety, quality, and continuity of service.

LOCAL SERVICE

LINE EXTENSION SERVICE

CONDITIONS (continued)

- 8. Replacement of the lawn, shrubbery, pavement, or other items damaged in the process of construction or maintenance on the customer's property will be the responsibility of the customer when such defacement or damage is not the result of negligence of the Company or its agents.
- 9. Actual cost of construction charges will apply when a customer requests moves or changes to existing outside plant facilities.
- 10. Actual cost of construction charges will apply when a customer line extension charge exceeds \$2,500.

COLLECTIVE APPLICATIONS

When line extension is required to serve a new applicant, the Company will make a survey of all prospects who might be served from the line extension project. A project will include all applicants that are grouped together where there is no more than one mile of line extension between successive applicants. Allowances will be made only for bona fide applicants for service.

The overall charge for the project, minus the collective public roadway allowances of all applicants, is divided equally among all the applicants. Charges for line extensions on private property are assumed by the applicants on whose property such extensions are made.

LINE EXTENSION SERVICE

PAYMENT OF CHARGES

Line extension charges may be paid in a lump sum or, when mutually agreed between the customer and the Company, the following payment schedule will apply:

\$ 0.00	-	\$ 100.00	3	months maximum
\$ 100.00	-	\$ 500.00	6	months maximum
\$ 500.00	-	\$ 1000.00	12	months maximum
\$ 1000.00	-	\$ 1500.00	24	months maximum
\$ 1500.00	-	\$	36	months maximum

Customers on installment plan may prepay line extension charges at any time without penalty.

Billing will commence as soon as the line extension is complete and the customer has dial tone.

The customer will be required to take service within 30 days of completion or the line extension amount will be due in full.

A contract will be required by the Company from each customer making installment line extension payments. Such contracts must be signed by both Company and customer prior to the installation of the line extension.

Subsequent Disconnection

The Company will not refund any part of a lump payment upon disconnect. If the customer is making installment line extension payments, he/she will be required to pay in full the amount owing on the contract at the time of disconnect.

Temporary Line Extension

When construction for an installation is required for temporary service, temporary meaning that there is no immediate prospect of reusing the plant provided, the subscriber will be required to pay in advance the entire line extension cost, plus the estimated cost of removing the line extension.

LOCAL SERVICE

LINE EXTENSION SERVICE

Subsequent Connection

If additional customers connect to an existing line extension (other than a speculative line extension) within three years after its construction, line extension charges for the original and additional customers shall be pro-rated as follows:

- Monthly line extension payments will be recalculated using the additional customers as a base and thereby reducing the payments of the original applicant accordingly.
- The recalculated payments will begin at the time of the additional customers connection.
- If the original applicants paid the line extension charge in full before the subsequent connection, a refund of the amount paid by the subsequent applicants (calculated as above) shall be made to the original applicant at the time of the subsequent connection.

Speculative Line Extension

Line extensions to serve platted new single family residential developments, multi-family residential structures, and mobile home parks are considered by the Company to be a speculative line extension. In this case the applicant (the developer) shall be required to pay in advance to the Company the entire cost of the line extension.

There will be no refund from the Company for subsequent connections as the applicant is in the position to be reimbursed through the sale of the property or other private rental arrangements.

SPECIAL CONSTRUCTION

RATES

For construction other than normal, the customer will pay the actual cost above normal cost in accordance with the conditions below.

For changing from one type construction to another on the customer's property, the customer will pay the costs of constructing the new and removing the old construction.

For moving existing construction, the customer will pay the actual cost, less salvage.

CONDITIONS

Except where required by law, the type of construction (direct burial, underground conduit, or aerial) is the prerogative of the company.

The Company will not be required to install or furnish service by underground conduit or direct burial facilities on the property of the customer at its expense.

If the customer requests underground conduit or direct burial construction on the customer's property, payment will be required for the difference between the cost of providing such underground facilities and the estimated cost of constructing equivalent aerial facilities.

If direct burial construction is requested on private property, the customer may participate to the extent of excavating and backfilling to the specifications of the company and shall replace lawn, shrubbery, pavement, sidewalks, or other item damaged in the process of construction.

If underground construction is the type used to the property line of the customer, the customer will be required to furnish, install, and maintain the conduit on the customer's property in accordance with the Company's specifications.

CONDITIONS

One primary listing, which may include the name, address, and telephone number of the individual(s), organization, firm, or corporation, will be furnished in the alpha section for each access line or each private branch exchange. Business listings must be in the customer's legal name.

Dual (joint) name listings will be provided for customers subscribing to residence service who share the same surname and reside at the same address, for women whose husbands are deceased, and for persons known by more than one given name.

Listings will be limited to such information as is necessary for proper identification.

The listing consists of one line. When use of abbreviations impairs clarity and identification, a second line may be used without additional charge.

The Company may refuse to insert any listing which, in its judgment, does not facilitate the use of the directory.

Additional Listing(s)

Additional Listing(s) must include the same address and telephone number as the primary listing except that a different address may be shown for off-premises PBX or Centrex stations located on other premises occupied by the customer.

Additional listings may be furnished with residence service for others who are members of the customer's domestic establishment and who occupy the same premises.

Foreign Exchange Listings

The rate for a foreign listing will be the rate of the Company in whose directory the listing appears. Foreign exchange listings may be furnished for customers requesting their listing be included in a directory alpha section different than normal.

CONDITIONS, (continued)

Non-Published Listing

Non-published service is an arrangement where a customer's listing is omitted from both the telephone directory and information listing.

No charge will be made for non-published numbers for customers having a listed number in the same exchange under the same listing.

The Company will take reasonable precautions not to publish the number in any of its publicly distributed directories and, except when required by law, will not disclose the number to any person other than representatives of law enforcement agencies, its own employees or representatives of those of other telephone companies, or to other customers who are billed for calls placed to or from non-published numbers.

Non-Listed

Non-listed service is an arrangement whereby a customer's number is omitted from the telephone directory but not from the Directory Assistance records.

When non-published or non-listed service is to be furnished, the customer will be required to execute an agreement which holds the Company harmless from any damages which might arise and which absolves the Company from any responsibility for the failure of the customer to receive calls because of the non-published or non-listed arrangement.

Subscribers to non-published and non-listed service will be required to pay for such service until the first issuance of a directory in which a requested change may be published, or until telephone service is discontinued.

Billing for such services will be discontinued with the last regular bill dated before the issuance of the directory in which the change is made.

Subscribers to non-published or non-listed may change from one to the other without incurring an additional monthly charge.

The Company's liability arising from errors in or omission of directory listings shall be limited to and be satisfied by a refund not exceeding the amount of the charges for such if the customer's service is affected during the period covered by the directory in which the error or omission occurred.

GENERAL SERVICES

DIRECTORY ASSISTANCE SERVICE

Directory Assistance Service provides the calling party with telephone numbers, information that a customer has requested that the number not be provided, or that the requested party has no telephone listing from the records of the Company's Directory Assistance operator.

RATES:

- 1. First three listings requested, local and/or intrastate per line, per month n/c
- 2. Each additional listing requested 30 cents

The rate does not apply to:

- a. Requests originated from telephone services which the Company has determined are used on a continuing basis by a person or persons incapable of using a published telephone company directory because of visual or physical handicaps. The customer must make application to the Company for such exemption. Also exempted are calls originating from public, semipublic, WATS, mobile, hospital or residential health care service telephones and emergency calls placed to "0" operators or 911.

CONDITIONS

When a customer has two or more lines and/or PBX trunks at the same premises and billed on the same account, the total usage of all lines and/or trunks is applied against the allowance for the total number of lines and/or trunks involved.

The allowance for a customer of Centrex is three listing requests per month for each group of eight Centrex primary station lines or fraction thereof. The allowance for a Centrex dormitory system line is two listing requests per month.

The allowance of three listing requests per line per month is not transferable between separate accounts of the same customer.

When a customer requests the assistance of a long distance operator to obtain a listing from the directory assistance operator, a surcharge of 50 cents per listing requested will apply in addition to rates above.

The telephone company shall establish practices and procedures to administer exceptions to the charge for directory assistance, verify disabilities, and prevent abuse thereof.

SPECIAL EQUIPMENT AND ARRANGEMENTS

For special equipment and arrangements requested by a customer, for which provision is not otherwise made, the appropriate installation, basic termination charges and monthly charges equivalent to the estimated cost of furnishing such equipment or arrangements apply. Estimated cost consists of an estimate of the following items to the extent that they are applicable:

1. Cost of maintenance.
2. Cost of operation.
3. Depreciation on the estimated cost installed of any facilities provided, based on the useful service life of the facilities with appropriate allowance for the estimated net salvage.
4. Administration, taxes, and uncollectible revenue on the basis of reasonable average charge for these items.
5. Any other specific items of expense associated with the part situation.
6. A reasonable amount computed on the estimated cost installed facilities provided, for return and contingencies.

Estimated cost installed as mentioned in 3 and 6 above includes cost of equipment and materials specifically provided or used plus the estimated cost of installing including engineering, labor, supervision, transportation and right-of-way, and any other items which are chargeable to the capital account.
