MISCELLANEOUS SERVICE ARRANGEMENTS

TEMPORARY SUSPENSION OF SERVICE/VACATION SERVICE \*

A. GENERAL

1. Upon request, the exchange telephone service may be temporarily suspended without termination of contract, as provided hereinafter.
2. Service may be suspended temporarily prior to the expiration of the initial service period. However, such suspension shall not serve to reduce the total charges otherwise applicable for the initial period.
3. Temporary suspension of service is not extended to service station customers or to Foreign Exchange Service interexchange mileage, and extended Foreign Exchange mileage in an adjacent exchange.
4. The minimum period of temporary suspension for local service is one (1) month.
5. Basic local exchange access line service may be temporarily suspended for a maximum period of four (4) months of any consecutive 12 months period. The rates or charge for such service will be one-half of the regular monthly rate or charge for that service during the period of suspension.
6. To qualify under this schedule the subscriber must be away from his premises at least one month.
7. No service will be given during the vacation period. The telephone instrumentalities will be left in place on the subscriber's premises and the subscriber's telephone number retained.
8. Service Charges as specified elsewhere in this tariff are applicable for subscribers going from suspended to regular service.

B. TEMPORARY SUSPENSION OF ENTIRE SERVICE

1. A customer for any grade of local business or residence service may temporarily suspend the entire service furnished with the exception of directory listings and/or directory advertising.
  - a. Residence Service – The rate to be charged during the period of suspension shall be 50% of the local exchange monthly charges.
  - b. Business Service – The rate to be charged during the period of suspension shall be 50% of the local exchange monthly charges. No reduction applies on charges for cable on private property furnished at charges based on cost in lieu of mileage charges.

\* As of July 30, 2004, this service will no longer be available to new customers. Once current customers disconnect this service, they will not be able to reestablish it.

MISCELLANEOUS SERVICE ARRANGEMENTS

TEMPORARY SUSPENSION OF SERVICE/VACATION SERVICE \* (Continued)

C. TEMPORARY SUSPENSION OF A PORTION OF SERVICE

1. A customer for Private Branch Exchange Service, or Type II or Type III Button Telephone Service may suspend a portion of the service furnished. Such suspension is applicable only to such positions, turrets, key cabinets, trunks, telephones, telephone lines and auxiliary telephone equipment as can be temporarily suspended without suspension of the entire service.
2. The rate to be charged during the period of suspension shall be equal to 50% of the monthly exchange service charge for the service and facilities suspended, excluding cable carrying charges on which no reduction applies.

Customers desiring reserved telephone service annually, i.e., a reserved cable pair, continued listing in directory, or the same telephone number reserved each year, are governed under Rules and Regulations for Temporary Suspension of Service. Telephone service without reservation of any of the above, may be obtained subject to availability of facilities and billed on an "as used basis" subject to the initial period of service as defined in other sections of this tariff.

\* As of July 30, 2004, this service will no longer be available to new customers. Once current customers disconnect this service, they will not be able to reestablish it. (N)

MISCELLANEOUS SERVICE ARRANGEMENTS

EMPLOYEES TELEPHONE SERVICE

A. GENERAL

Employees' Telephone Service is offered to all permanent full time employees at their listed permanent residence, when such service is provided by the Company.

B. RATES

1. Company personnel who reside within an area served by the Company shall be granted a concession on residential basic service.
2. No concessions for toll message services are made to employees.

C. CONDITIONS

1. One primary listing may be provided in the name of the employee (except that the listing of a married woman may be in her or her husband's name).
2. Retired Company employees who reside in exchanges operated by the Company shall receive Employees' Telephone Service at the same rate as at their time of retirement.
3. Employees' Telephone Service at their residence is available to all permanent employees of the Company having at least three month's continuous service with the Company.
4. Service provided to employees other than as listed in B. Rates, above, will be provided at regular filed tariff rates.

AUTOMATIC DIALING AND ANNOUNCING DEVICES (ADADs)

A. GENERAL

1. Automatic dialing and announcing devices (ADADs) are devices programmed automatically to dial customers and to provide an unsolicited message.
2. An ADAD may be connected to the telephone network only when it meets the criteria outlined in Conditions below. However, such conditions do not apply to requested or contracted for automatic announcements for return calls, notification-of-termination-of-service warnings from telephone companies, or security, paging or alarm systems subscribed to by a customer.

B. RATES

|                 |                |
|-----------------|----------------|
|                 | <u>Monthly</u> |
| Per Access Line | \$11.50        |

C. CONDITIONS

1. ADADs that do not automatically disengage the called party's line when the called party hangs up his/her/its receiver are absolutely prohibited, except when the called party has previously agreed to receive the ADADs and to allow its line to be engaged in this manner.
2. ADADs are prohibited from making unsolicited calls before 9:00 a.m. or after 9:00 p.m. in the called party's local time.
3. ADADs are prohibited from calling public safety number such as police, fire and emergency services. Except as allowed in Section A.2 above, ADADs are prohibited from unsolicited calling to unlisted, unpublished or inward WATS numbers. ADADs are prohibited from calling more than one number held by a given called party.
4. ADADs must pay measured or message business service rates when either is available or flat rates reflecting their intensive use of the telephone network when measured and message services are not available.
5. All customers operating ADADs must notify the local telephone company(ies) providing local services to the exchanges in which they originate and terminate their calls from and estimate how intensively the ADAD is expected to use local access lines.

MISCELLANEOUS SERVICE ARRANGEMENTS

FOREIGN EXCHANGE SERVICE\*

A. GENERAL

Foreign Exchange Service is local service provided to a customer from a central office of an exchange other than the one that normally serves the area in which the customer is located. This type of service can be accomplished over interexchange channel facilities or by cross boundary foreign exchange.

B. DEFINITIONS

Foreign Exchange

Any exchange other than the one in which the customer premises is located.

Local Exchange

Exchange that normally serves the area in which the customer premises is located.

Interexchange Channel Facility

The portion of the foreign exchange service circuit that is provided between the local central office and the foreign exchange central office.

Cross Boundary

Dial tone is provided directly to the customer from the foreign office rather than passing over an interexchange channel facility.

C. CONDITIONS

1. Foreign Exchange Service is not in accord with the normal plan of furnishing telephone service. Such service is provided at the rates shown herein where facilities are available or can readily be made available without unusual cost. Where foreign exchange service is furnished at remote or isolated locations or where unusual costs are involved, additional service, construction and/or monthly charges may apply, depending on the circumstances in the individual case.
2. Foreign Exchange Service may be provided only in connection with Private Branch Exchange trunk lines, and individual line business or residence service. The service shall be furnished only at the one location or premises for each channel or circuits.
3. The regulations and rates contained herein apply to Foreign Exchange Service where (1) the normal and foreign exchange areas are contiguous and (2) where the service may be provided by the normal extension of exchange plant.

\* This service is going to be grandfathered to existing customers at the existing locations and it will not be available to new customers after the effective date of this tariff.

Section 5  
Original Sheet 7

MISCELLANEOUS SERVICE ARRANGEMENTS

FOREIGN EXCHANGE SERVICE\* (Continued)

C. CONDITIONS (Continued)

4. Where the normal exchange is operated by this Telephone Company, Foreign Exchange Service is furnished only on the condition that the applicant is a customer to individual line business or residence service, or Private Branch Exchange Service in the normal exchange and at the same location where such service is proposed to be installed.
5. Where the Foreign Exchange is operated by, or where all or a portion of the interexchange channel is furnished by another telephone company, Foreign Exchange Service will be provided only when satisfactory arrangements can be negotiated with such company to furnish its portion of the necessary facilities.
6. Existing Foreign Exchange customers will continue to be provided two and four-party message and mileage service. However, as of the effective date of this tariff, future subscribers to this service will be limited to connection with business or residence one-party service only.
7. Foreign Exchange Service is furnished subject to the same conditions as to the use of the service as apply in connection with other classes of exchange service.
8. Foreign Exchange Service will not be provided to or from exchanges of other telephone companies to which there is Extended Area Service.
9. The local service area, local message charges and message toll charges of the serving (foreign) exchange apply to Foreign Exchange Services.
10. Calls beyond the local calling area of the serving exchange will not be permitted. Local calling area is considered to be the telephones served by the serving exchange, plus any extended area service which may be provided from the serving exchange.

\* This service is going to be grandfathered to existing customers at the existing locations and it will not be available to new customers after the effective date of this tariff.

Section 5  
Original Sheet 8

MISCELLANEOUS SERVICE ARRANGEMENTS

FOREIGN EXCHANGE SERVICE\* (Continued)

C. CONDITIONS (Continued)

- 11. Main stations connected for Foreign Exchange Service will be listed in the directory of the exchange from which the customer is served. Listings in other directories will be furnished at the regular rates for foreign listings.
- 12. Foreign Exchange Service is not furnished in connection with public or semi-public services.
- 13. The following two Arrow Junction residents reside in the Julieatta exchange:

Brenda White  
Rt. 1, Arrow Junction  
Julieatta, ID  
Telephone # 843-2613

William Stevens, Jr.  
Rt. 1, Arrow Junction  
Julieatta, ID  
Telephone # 843-2527

These two residents are served and billed 100% by U.S. West. As per Order No. 23001, Case Nos. POT-T-89-2 and PNB-T-89-3, dated March 13, 1990, the two residents will be grandfathered to the existing customer at the existing location.

D. RATES

1. Foreign Exchange Service Over Interexchange Facilities

Rates and charges will apply for service provided from the end user premise to the local central office and over interexchange facilities. Charges will be billed to the end user or the connecting telephone company depending on billing arrangements agreed upon by the companies.

Interexchange mileage is the V and H coordinate miles between local central office and foreign central office of the two exchanges involved. For that portion of the interexchange channel facilities furnished by another telephone company between the local central office and the foreign central office of the two exchanges involved, the interexchange channel facility mileage charges of such company will apply to the exchange boundary.

\* This service is going to be grandfathered to existing customers at the existing locations and it will not be available to new customers after the effective date of this tariff.

MISCELLANEOUS SERVICE ARRANGEMENTS

EMERGENCY CONFERENCE SERVICE

A. GENERAL

- 1. The Tellabs 291 Conference Altering System is a multi-point ringdown telephone conference circuit used in emergency reporting and alerting, or business conference applications. The System provides simultaneous access to up to 30 conference stations.

An emergency call placed into the 291 through a dispatcher or via a directory number rings all phones in the emergency network. A non-emergency call in progress on an emergency crewmember's home phone may optionally be overridden, or the crewmember may be provided with a tone to advise him to terminate his conversation and take the emergency call.

Remote access capability permits an emergency crewmember away from his telephone to dial into the conference from a paystation or other handy phone in response, for example, to community siren. The 291 System even offers an optional module to activate and time the community siren.

B. RATES

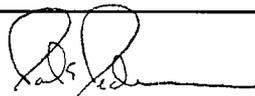

|  | <u>Monthly Rates*</u> | <u>Installation or Move Charges 1/</u> |
|--|-----------------------|--|
| 1. Tellabs System                            |                       |  |
| a. Common Equipment                          | No Charge             | --                                     |
| b. 30 Position Basic System                  | No Charge             | --                                     |
| c. Conference Termination Line Circuit, each | No Charge             | <u>2/</u>                              |
| d. Remote Siren Control Option               | No Charge             | --                                     |

DIRECT INWARD DIALING (DID) SERVICE

A. GENERAL

The Telephone Company will provide, subject to the availability of facilities, Direct Inward Dialing (DID) Service. DID service provides for the completion of local and toll calls to associated station numbers without intermediate handling by an attendant.

B. RATES

- 1. The rates and charges for central office trunk associated with Direct Inward Dialing (DID) Service are as found below:

|  | <u>Monthly<br/>Rate</u> | <u>NRC</u>  |
|--|-------------------------|-------------|
| a. DID Facility Charge, Per Trunk                          | (1)                     | (1)         |
| b. DID Software Translation Charge, Per Trunk              | N/A                     | \$50.00     |
| c. DID Number Assignment Charge<br>(Blocks of 10 numbers)* | \$5.00                  | \$50.00 (2) |

\*Numbers sold in conjunction with DID Service only.

C. CONDITIONS

- 1. The service is furnished subject to the availability of Central Office facilities and compatibility of customer-provided equipment.
- 2. The service includes central office switching equipment for in-dialing from the exchange and toll network directly to stations associated with customer premises equipment.

- (1) See Section 4, Sheet 1 for associated PBX trunk rate and Section 9 for the installation charge.
- (2) Not applicable if installed with initial installation. Subsequent installations are subject to non-recurring costs.

MISCELLANEOUS SERVICE ARRANGEMENTS

DIRECT INWARD DIALING (DID) SERVICE (Continued)

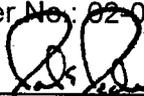

C. CONDITIONS

3. The service must be provided on a minimum of 10 lines in a trunk group arranged for inward service.
4. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
5. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
6. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
7. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
8. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
9. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
10. DID numbers will be sold in conjunction with DID service only.
11. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

MISCELLANEOUS SERVICE ARRANGEMENTS

CABLE AND CIRCUIT RENTAL

A. GENERAL

Cable Pair Circuit is a voice-grade circuit provided for Key or PBX tie lines, private lines, alarm circuits, etc. to furnish communications between two or more terminations directly connected to it. Such terminations do not have access to the general exchange and interexchange networks. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

B. RATES

|  | <u>Installation<br/>Charge</u> | <u>Per Month</u>  |
|--|--------------------------------|---|
| Circuits, per pair, per tenth mile or fraction | \$20.00                        | 1 <sup>st</sup> 1/4 mi. - \$2.00<br>@add 1/4 mi. - \$1.25 |

C. CONDITIONS

1. The circuit will consist of the entire loop required to provide the service between all terminations within the local exchange. The circuit will consist of no more than one (1) cable pair (two wires) which may terminate onto another cable pair in the central office of the local exchange.
  - a. The circuit, suitable for basic voice communications, will be provisioned as a two-wire interface engineered for a 1000Hz net loss of 0 to 10dB.
2. Mileage applicable to Cable Pair Circuits will be determined in the following manner:
  - a. When the terminals are located in the same Central Office area, the mileage measurement is the airline distance between the terminals.
  - b. If the circuit passes through a Central Office, the airline mileage must include the Central Office.
3. When the service is provisioned for Key or PBX tie lines, the total monthly rate for mileage service will be the sum of the basic rate for the primary service furnished, and the appropriate mileage charges above.

ACCOUNT RETENTION

(N)

A. GENERAL

This service allows a customer to retain their current phone number and associated services when they temporarily disconnect service. When the customer reconnects service they will receive the same phone number and associated services as when they previously held service.

B. CONDITIONS

1. Customers may retain their current phone number for a minimum of one (1) month and a maximum of ten (10) months.
2. The customer must furnish a forwarding address for billing purposes.
3. The customer may purchase in advance the retention of the phone number if a forwarding billing address cannot be furnished.
4. Account Retention is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.
5. The customer must have at least one month of regular telephone service paid prior to the establishment of Account Retention.
6. Account Retention may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
7. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.
8. Only two suspension periods will be allowed and shall not exceed ten months in any one calendar year nor exceed ten continuous months at any time regardless of the year.

SAFETY LINE SERVICE<sup>2</sup>

A. GENERAL

Safety Line Service is a bundle for residential customers who have their main telecommunications service with a wireless provider but require a basic access line for back-up and high speed data.

The bundle includes a Residential One-Party Line and 1.5 Mbps high speed data.

B. TERMS AND CONDITIONS

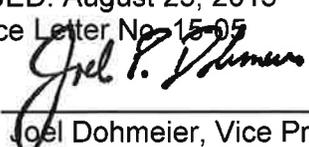

1. Safety Line Service will be provisioned where facilities are available.
2. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs will apply to this bundle.
3. No other optional services or features are allowed with this bundle, except Toll Restriction, Toll Restriction PIN Override, Non-Published Numbers, and Non-Listed Numbers. These four services will be allowed at the rate listed elsewhere in the tariff.
4. Customers must subscribe to this service for 1 year. Cancellation of the bundle prior to the one year timeframe will cause an early termination fee of \$99 to apply.
5. Customers must subscribe to TDS Long Distance Corporation as their long distance provider.
6. Any toll calls will be billed at TDS Long Distance toll rates.
7. Service Connection Charges will not apply.
8. Optional Call plans are not available with this bundle.
9. Seasonal Service is not available with this bundle.

MISCELLANEOUS SERVICE ARRANGEMENTS

RELOCATION FORWARDING SERVICE

(N)

A. GENERAL

Relocation Forwarding Service (RFS) is a voice only application service which allows calls sent to a telephone number programmed in the central office to automatically forward to a customer's terminating premises equipment or voice mail box. The customers premise equipment or voice mail box may be located in the same or different exchange from the call forwarding location.

B. CONDITIONS AND LIMITATIONS

1. RFS service is offered subject to availability of suitable facilities.
2. RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities.
3. Only one call will be forwarded at one time. Another call will not be sent through until the previous call is completed.
4. Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and the terminating point.
5. One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.
6. The minimum service period is one month.
7. RFS service is not offered where the terminating station is a coin telephone.
8. Service is not available on ported numbers or to Internet Service Providers.

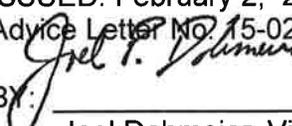

C. RATES AND CHARGES

DIRECTORY SERVICES

DIRECTORY LISTINGS

A. GENERAL

1. The rates and regulations set forth below apply in connection with listings in the official Telephone Company directory and apply only to the alphabetical section of the directory containing the regular alphabetical list of customers and do not apply to listings or advertising appearing in the classified section.
2. A listing must conform to the Telephone Company's specifications with respect to its directories.
3. The Telephone Company has the right to limit the length of any listing to one line in the directory by the use of abbreviations when the clearness of the listing or the identification of the customer is not impaired thereby.
4. Listings are regularly provided in connection with all classes of exchange service except Public Telephone Service. A listing may be omitted from the directory upon request of a customer in writing and under the conditions specified for Nonpublished Service, and/or Nonlisted Directory Service.
5. The Company may refuse to insert any listing which in its judgment does not facilitate the use of the directory.
6. The Telephone Company is not liable for damages arising from errors or omissions from its directory, except in cases where a specified charge has been made for a listing and then the liability of the Telephone Company shall not exceed the amount of such charges.

B. RATES

1. The following rates are applicable to the alphabetical section of the telephone directory for business or residence customers.

|                                   | Rate Per Month |            | S&E         |            |

C. CONDITIONS

1. Primary Listings

a. A primary listing is furnished as part of and in the rate for Local Exchange Access Line Service. The primary listing may include the name, address and telephone number of:

- 1) The individual, organization, firm or corporation contracting for the service.
- 2) The same surname with no more than two individual given names. Each given name for the purposes of this Tariff is defined as any combination, not to exceed two, of the following:
  - a) First name
  - b) Middle name
  - c) Initial
  - d) Nickname
  - e) Maiden name
- 3) An additional listing reversing the order of the individually given names in 2., above, may be provided at the rates for additional listings, shown in B. Rates, above.

2. Additional Listings

a. Business additional listings may be the names of partners or members of a partnership or firm, the names of officers of the corporation, or the names of business associates or employees of a business establishment. Business additional listings may be the bona fide names of individuals, firms or corporations which the customer owns or controls or is duly authorized to represent. Listings, which are designed primarily to give publicity to a commodity or service, are not accepted.

C. CONDITIONS (Continued)

2. Additional Listings (Continued)

- b. Residence additional listings may be the names of members of the customer's family or of other persons residing in the customer's household as part of the family unit.
- c. Business additional listings in connection with semi-public coin stations are furnished under rates and regulations as specified for business additional listings.
- d. An additional listing may include the same address and telephone number as the primary listing, except that a different address may be shown for off-premises stations located on other premises occupied solely by the customer.

3. Alternate Listings

- a. An alternate call listing refers a calling party to certain other telephone numbers after business hours or on Sundays or holidays, or if there is no answer on the first listed number.
  - 1. Where the Alternate Call number is to be that of another customer, the listing will be furnished only with written approval of the other customer.

4. Duplicate Listings

Duplicate listings, i.e., listing of nicknames, abbreviated names, names which are commonly spelled in more than one way and rearrangements of names are permitted when, in the opinion of the Telephone Company they are necessary for the proper identification of the customer, and are not designed to secure a preferential position in the directory or for advertising purposes.

5. Additional Lines of Information Listings

Listings of office hours or other lines of information which are not required by the Telephone Company in order to efficiently handle telephone traffic are not included in the regular charges for service. Regular additional listing rates apply to the listing of office hours or other information desired by the customer in connection with his/her listing. A phrase directing the method of calling when a PBX operator is not on duty may be listed in the directory, at extra charges, whenever night connections are provided.

DIRECTORY LISTINGS (Continued)

C. CONDITIONS (Continued)

6. Cross Reference Listings

Cross Reference directory listings enable a customer to use a former listing to refer customers to his new listing appearing elsewhere in the directory. Cross-reference listings do not include an address or telephone number and are permitted when, in the opinion of the Telephone Company, they are necessary for the proper identification of the customer, and are not desired to secure a preferential position in the directory or for advertising purposes.

7. Office Hours Listings

Business customers who desire that their office hours appear in connection with their primary listing may obtain this directory service.

8. Foreign Directory Listings

Arrangements may be made by customers to list their telephone service in the directories for other exchanges other than that in which the listed service is furnished, such arrangements to be made by the Company in whose exchange service area the customer's premises are located at the regular additional listing rate for the alphabetical directory in which the listing appears.

9. Temporary Listings of Tenants Sub-Leasing Customer's Premises

a. Residence customers who temporarily lease their premises for periods of less than one year and who request the Telephone Company to render service to their tenants without change in the billing, may arrange for directory listings for such tenants. Such listings are not permitted in the event the customer and the tenant occupy the premises at the same time.

b. All billings and contractual agreements remain unchanged, the customer being responsible for the payment of all charges.

c. The regular additional listing rate applies for each listing.

10. Nonlisted Service

*Jan D. Jewell* SECRETARY

Nonlisted Service is the omission of a customer's listing from the telephone directory only. It may be obtained from the directory assistance operator.

11. Nonpublished Service

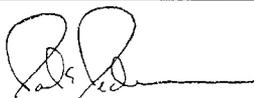

Nonpublished Service is the omission of a customer's listing from both the telephone directory and directory assistance records.

- a. When nonpublished service is to be furnished, the customer will hold the Company harmless from any damages which might arise and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the nonpublished listing.
- b. The rate for nonpublished service is specified in B. Rates above.
- c. The charge will not apply to nonpublished numbers for customers having the following services:
  - 1) When the customer has another published number for the same class of service in the same exchange.
  - 2) Public Telephone Service
  - 3) Special Reversed Long Distance Service (Enterprise)
  - 4) Foreign Exchange Service
  - 5) Temporary Service (service provided for a period not more than 30 days)
  - 6) Special services such as teletypewriters or data services provided for customers with impaired hearing having a limited requirement for voice communication.
  - 7) Local Exchange Service for customers living in a hotel, hospital, retirement complex, apartment complex, boarding house, or club provided the customer is listed under the telephone number of the establishment and where the customer has another published number for the same class of service.

Directory Assistance Service provides the calling party with:

*Jean W. Jewell* SECRETARY

1. Telephone numbers available from the Company's Directory Assistance operator.
2. Information that the Customer has requested the number not be given out to the public.
3. Information that the name requested does not appear on the records.

B. CONDITIONS

1. The allowance of three calls per month at no charge is administered for multi-line services as follows:
  - a. A Customer with two or more lines and/or PBX trunks on the same premises and billed on the same account is allowed three calls per line and/or trunk accumulated to the total lines and/or trunks in service.
2. The rate does not apply to the following:
  - a. Requests originating from public or semi-public coin telephones.
  - b. Requests originating from hospitals or convalescent homes.
  - c. Requests originating from telephone services the Company has determined are used on a continuing basis by a person or persons incapable of using a published telephone directory because of a physical or functional handicap.
3. The allowance is not transferable between separate accounts of the same Customer.
4. One of the following situations constitutes a single request:
  - a. Any "if no answer" or "or" number associated with a listing.
  - b. Any suggestion of a way a number may be listed when the original listing cannot be located.
  - c. A final "not found" report applies even after checking for alternate listings as shown in 2 above.
  - d. A maximum of two listings from a caption provided to satisfy a request for one number.

A. GENERAL

Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

*Jan D. Jewell* SECRETARY

B. SERVICE DESCRIPTIONS

1) **CALL FORWARDING**

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

2) **CALL FORWARD - BUSY (CUSTOMER PROGRAMMABLE)**

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

3) **CALL FORWARD - NO ANSWER (CUSTOMER PROGRAMMABLE)**

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

OPTIONAL SERVICES

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

4) CALL FORWARD-BUSY/NO ANSWER

This service automatically redirects incoming calls to another telephone number or voice mail service when the customer's line is either busy or the customer's telephone is not answered after a predetermined number of rings. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate the service, the customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

5) 3-WAY CALLING

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use 3-Way Calling will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

6) 6-WAY CALLING

This service allows a customer to call up to five parties and establish a six-way conference call. To activate this service, the customer dials an access code, dials the desired telephone number (calling party must answer), depresses the switchhook to add the calling party to the line, then depresses the switchhook again to receive a new dial tone. If the called party line is busy or there is no answer, the customer must dial a special access code to drop the line. This process needs to be repeated until all parties (up to five) have been connected to the customer's line. All 6-Way Calls are subject to transmission limitations and all applicable local and long distance charges.

7) CALL TRANSFER \*

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

(T)

\* As of December 5, 2003, this service will no longer be available to new customers. Once current customers disconnect this service, they will not be able to reestablish it.

Section 7  
Original Sheet 3

OPTIONAL SERVICES

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

8) 3-WAY CALLING WITH CALL TRANSFER

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. Where the customer originates both legs of a 3-Way Call, those legs will remain bridged together when the subscriber goes on-hook when at least one of the legs is a call for which both the originating and terminating points are served by the same switch. Where the customer originates two interswitch legs of a three-way call, both legs will remain bridged when the subscriber goes on-hook. Any applicable long distance charges will be incurred by the customer originating the call for the duration of the call, even if the customer drops off the call. This feature shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of usage charges, toll or otherwise, that would regularly be applicable between the stations bridged together by the Customer.

9) CALL WAITING/CANCEL CALL WAITING

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

10) HOME INTERCOM – BASIC

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

OPTIONAL SERVICES

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

11) HOME INTERCOM - ENHANCED

This service allows customers to establish a talking path between two or more of their extensions. To activate this service, the customer dials one of the access code numbers predetermined by the Company, receives an announcement, and then hangs up the phone. The phone will ring back in one of the distinctive patterns, depending on the access code dialed. Also included in this package is dialable hold, where one extension can transfer an outside call to another extension.

(D)

12) PERSONAL RINGING

This service allows the customer to have up to four distinct telephone numbers on a single line. The second, third and fourth number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all four telephone numbers can be forwarded.

(D)

(T)

13) SPEED CALL 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

(T)

14) SPEED CALL 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

(T)

15) DO-NOT-DISTURB

This service prevents incoming calls from ringing at the customer's premises. Callers will reach a recording which states that the number they have dialed is not accepting calls at this time and to try again later. A personal identification number (PIN) is available to allow selected callers the ability to override this service in order to reach the customer.

OPTIONAL SERVICES

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

16) **TOLL RESTRICTION**<sup>1</sup> (T)  
This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

17) **TOLL RESTRICTION WITH PIN OVERRIDE** (T)  
This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

18) **CALL TRANSFER ENHANCED** (T)  
This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind Transfer. A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3-way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the call, even if the customer drops off the call.

<sup>1</sup> The Idaho Telecommunications Service Assistance Program (ITSAP) lifeline customers will be exempt from paying Toll Restriction charges, per Order No. 27254, FCC Order No. 97-157.

OPTIONAL SERVICES

ADVANCED CALLING SERVICES

A. GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer Customers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

B. SERVICE DESCRIPTION

1. ANONYMOUS CALL REJECTION

This service enables a Customer to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

2. CALL REJECTION

This service enables a Customer to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the Customer dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a Customer can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the Customer's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the Customer's list, standard call completion will occur.

3. **CALL RETURN**

*Jean H. Jewell* SECRETARY

This service enables the Customer to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the Customer's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the Customer will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

Call Return is available on a per usage or flat rate basis. This service will have a per activation rate and a specified number of chargeable activations. After the specified number of chargeable activations, each activation thereafter will be at no charge.

4. **PREFERRED CALL FORWARDING**

This service enables the Customer to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the Customer dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the Customer's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. **PRIORITY RINGING**

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the Customer has subscribed to Call Waiting), when the Customer receives calls from them. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the Customer's list and provide the Priority Ringing service for the preselected telephone numbers on the Customer's list.

(D)

(D)

6. SPECIAL CALL ACCEPTANCE

This service enables a Customer to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the Customer dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the Customer's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

(T)

7. CALLER ID

Caller ID - Basic (Number only) and Caller ID-Deluxe (Name and Number) are the available services.

(T)

a) Caller ID - Basic

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID Customers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

B. SERVICE DESCRIPTION (continued)

7. CALLER ID (continued)

(T)

a) Caller ID - Basic (continued)

If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID Customer will receive a privacy indicator. This privacy indicator notifies the Caller ID Customer that the calling party chose to block number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

b) Caller ID - Deluxe

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe Customers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers and names where technically feasible.

If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe Customer. Instead, the Caller ID - Deluxe Customer will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe Customer that the calling party chose to block name and number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

B. SERVICE DESCRIPTION (continued)

8. CALLER ID BLOCKING

(T)

Caller ID Blocking allows the caller to prevent the delivery of his/her calling data to a Caller ID Customer on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

a) Caller ID Blocking - Per Call

This service will block the delivery of the caller's data to a Caller ID Customer for one call only and may be activated from all single party access lines by dialing \*67 (1167 from a rotary phone) prior to placing the call. **PER THE FCC CALLER ID ORDER, EFFECTIVE 12/1/95, CALLER ID BLOCKING - PER CALL IS PROVIDED TO ALL CUSTOMERS AT NO CHARGE.**

As of 1/1/97, per FCC Docket 91-281, per call blocking will be provided on calls originating from public, semi-public or other paystations used by the general public and party lines.

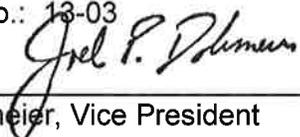

b) Caller ID Blocking - Per Line

This service will automatically block the delivery of the caller's data to a Caller ID Customer on all calls and will be made available or offered, at no charge, to all customers, including law enforcement agencies and domestic violence programs. Per line blocking can be deactivated by dialing \*82 (1182 from a rotary phone) prior to placing the call.

B. SERVICE DESCRIPTION (continued)

9). CALL TRACE

(T)

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. Upon completion of a successful trace, the customer will be assessed a Call Trace fee that will appear on the customer's next bill. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

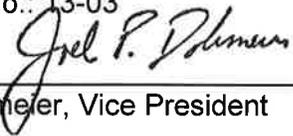

Call Trace may not capture incoming telephone numbers marked "private" or "out of area".

Only calls from locations with compatible signaling services are traceable using Call Trace.

C. SPECIAL CONDITIONS AND LIMITATIONS

JUL 22 '02

JUL 26 '02

1) Special Conditions for Caller ID:

*Juan D. Jewell* SECRETARY

a) An originating caller's data may not be displayed to the called party under the following conditions:

- The caller's data will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller's data. If the customer subscribes to both Call Waiting and Caller ID, and is on an existing call, the second incoming call information will not be displayed. Instead, the called party will receive the usual Call Waiting tone.
- The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
- Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the date message.
- Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number or name and number (if available) of the PBX or Key System will be displayed.
- Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
- The caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
- The calling party has activated blocking.
- Caller ID services do not display a directory number or name and number (if available) for operator assisted calls, calls marked private by the originator or calls originating from pay and party line stations.

C. SPECIAL CONDITIONS AND LIMITATIONS (continued)

1) **Special Conditions for Caller ID:** (continued)

b) The following special conditions apply to Caller ID services based on the FCC Caller ID Order effective 12/1/95:

- If a customer dials a "1-800" or other Automatic Number Identification (ANI) Service number, the telephone number that they are calling from will be revealed to the called party through ANI technology. Even if the customer has per line blocking or has activated per call blocking, the 800 number party has the right to obtain this information through ANI.
- ANI information may not be reused or resold for other purposes without a caller's consent, even where the called party has paid for the call.
- Caller ID services are available on all long distance calls where technically feasible.
- All calling data will be displayed to E911 through ANI technology, even if the customer has per line blocking or has activated per call blocking.
- All calling data will be passed, even for customers who do not subscribe to Caller ID.
- Per Call Blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per Call blocking.)

C. SPECIAL CONDITIONS AND LIMITATIONS (continued)

2) **Limitations of Advanced Calling Services:**

The management of these services is possible only:

- Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party;
- When both the originating customer and the call terminating customer are served from the same central office;
- When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities;
- If offering Caller ID - Deluxe, the Calling Name will be displayed only where appropriate facilities are available to provide a match of Calling Name to Calling Number.

The Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failures, or malfunctions of ACS Services or equipment. Such damages of services after the Company has been notified, and has had reasonable time for repair, shall in no event exceed an amount equivalent to the rates charged for the service affected from the time the customer gives notice until service is restored.

It shall be the responsibility of the Customer to provide customer premise equipment (CPE) compatible with ACS.
