SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.12 Annual Usage Commitment Level

Customers who enter into a term agreement must meet an Annual Usage Commitment. The Customer's Annual Usage is established by using the third (3rd) month's actual toll usage, excluding directory assistance, multiplied by twelve (12) months, and multiplying that result by 50%. By the end of the twelfth (12th) month of the Customer's Initial Term of Agreement, usage must be at or above the established Annual Usage Commitment. If the Customer's usage does not meet this requirement, in the thirteenth (13th) month, and at the end of the twelve (12) month period remaining in the Initial Term or Renewal Term as applicable, the Customer will be billed the difference between the actual usage level and the predetermined Annual Usage Commitment. The Annual Usage Commitment as described is used in the calculation of the Discontinuance Charge for early termination of an Initial Term or Renewal Term, as applicable.

2.13 Agreement for Service

The initial term of service provided under an Agreement for Service ("AFS") shall be set forth on such AFS. Upon expiration of the initial term, the AFS shall automatically renew on the same terms and conditions (including, without limitation, the rates) for successive one (1) year terms unless either party notifies the other of its intention to terminate the AFS at the end of the initial term or renewal term, as the case may be, which such notice shall be in writing and provided to the other party at least thirty (30) days prior to the expiration of the initial term or the renewal term, as the case may be. In the event of such notice, the AFS shall terminate upon the expiration of the initial term or renewal term, as the case may be. The Customer must follow the process as outlined in Section 2.15.6 when notifying the Company of its intent to terminate the AFS at the end of the initial term or renewal term, as the case may be.

The Customer shall notify the Company in writing if the Customer contact person is changed. The Company reserves the right to reject any Customer termination request received from any person other than the designated Customer contact person.

2.15.2 Cancellation by the Customer without Cause

- A. Discontinuance Charge. The Customer's rates and discounts, if any, are provided to the Customer in exchange for the Customer's commitment to obtain the Services for the agreed upon term of the Agreement for Service ("AFS"). If the Customer terminates all or any part of the Services obtained under the AFS prior to the expiration of the initial term or any renewal term then in effect for any reason other than Cause (as set forth in the following 2.15.3 below), then, in addition to payment for all Services rendered through the effective termination date, the Customer shall be liable to the Company for:
1. the Annual Usage Commitment amount remaining unpaid for the remainder of the Initial Term or Renewal Term; or
 2. the total of all monthly recurring charges through the end of the Initial Term or Renewal Term, as applicable
 3. any waived installation charges, the cost of any incentives and any miscellaneous charges incurred for dedicated access, including but not limited to engineering fees, expedite fees, carrier and local exchange order fees, change order charges, and miscellaneous configuration charges. In addition, the Company shall be entitled to the cost of collection of the forgoing amounts including, without limitation, court costs, reasonable attorney's fees and interest on past due amounts.

Because damages resulting from early termination are difficult to determine, the Discontinuance Charge is a reasonable approximation of such damage and shall be considered a liquidated damage and not a penalty.

B. Discounts/Incentives Received.

Incentive(s) include but are not limited to free or discounted services, waiver of any fees (i.e., installation charges, loop charges), waived rental of equipment, etc. If Customer cancels any service provided under an Incentive in full or in part (i.e., Customer receives a discount for bundled services but cancels one of the services prior to the end of the Term), then Customer shall pay any fees Customer would have incurred without the Incentive. Likewise, Customer shall pay the then current rate for any equipment received under an Incentive (i.e., data CPE: multiplexers, CSU/DSU, routers, etc.) and/or, at the Company's discretion, allow the Company to retrieve the equipment from the Customer's premise during normal business hours.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 General

The Company provides direct dialed, travel card and operator assisted long distance telecommunications services originating and terminating within the State of Idaho. Rates for these services may vary by product type, call duration, mileage and time of day. All services are available 24 hours a day, seven days a week.

3.1.1 Minimum Call Completion Rate

A Customer can expect a call completion rate (number of calls completed/number of calls attempted) of not less than 99% during peak use periods for all services.

3.2 Timing of Calls

Long distance charges are based on the actual usage of the Company's network. Chargeable time begins when the called party answers, or when the billed party of a collect or person call accepts the charges. Chargeable time ends when either party disconnects.

Unless otherwise specified in this price list the minimum call duration and rounding of calls for measurement and billing purposes is one minute.

SECTION 3 - DESCRIPTION OF SERVICE (CONT'D.)

3.2 Timing of Calls (Cont'd.)

Computation of Charges

For the computation of charges, the duration of each call is measured and rounded up to the applicable billing increment, then multiplied by the applicable rate and if the computed charge for any individual call results in a fraction of a cent, the fraction is then rounded up to the next whole cent on a per call basis. For example, a service may provide that each call will be charged a minimum of 18 seconds and thereafter timed in 6-second increments; therefore, under this example, a 10-second call will be rounded up to 18 seconds (0.3 minutes), and a 44-second call will be rounded up to 48 seconds (0.8 minutes). If, after multiplying the billing increment by the applicable rate, the computed charge for an individual call results in a fraction of a cent, the fraction is rounded up to the next whole cent (for example, \$1.523 would round up to \$1.53). Once the charge for each call is computed as described above, the calls are summed on the Customer's invoice.

There is no billing applied for incomplete calls.

The appropriate rates apply for day, evening and night/weekend calls based on the following chart.

Times	Mon	Tues	Wed	Thur	Fri	Sat	Sun
8:00 am to 5:00 pm	Daytime Period						
5:00 pm to 11:00 pm	Evening Period						Eve.

8:00 am to 5:00 pm*	Peak Period						
5:00 pm to 8:00 am*	Non-Peak Period

The evening rates apply to the holidays listed below unless a lower rate normally applies:

New Year's Day	January 1
Memorial Day	Nationally Recognized Day
Independence Day	July 4
Thanksgiving Day	Nationally Recognized Day
Christmas Day	Christmas Day

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in the NPA-NXX V & H Coordinates Tape and Bell's NECA Tariff No. 4.

Formula:

$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

3.21 LD Rewards

LD Rewards Switched Long Distance is a direct dialed outbound long distance and toll free service designed for existing Company Business Customers who are re-termining their long distance services. Customers who commit to a minimum monthly volume level will receive rates as specified in Section 4.18. The volume level commitment is based on the Customer's total usage charges during a monthly billing period. Eligible usage includes Customer's outbound and toll free domestic calls.

Per minute intrastate and interstate rates are set forth in Section 4.18 of this price list and apply exclusively to outbound and toll free domestic traffic. International, Directory Assistance and Operator Services calls are not eligible to receive the rates as specified in Section 4.18.

A minimum one-year term agreement is required for this service. No additional discounts will be applied to the rates as specified in Section 4.18.

No other charges, including taxes and the monthly fee, if applicable, will be eligible in attaining the commitment. If the total monthly usage does not meet the minimum volume commitment level, the Customer will be billed an amount that will meet the minimum volume commitment level. The amount will appear as a separate line item on the customer's bill and will be identified as "Volume Level Shortfall Amount." Taxes and surcharges apply to the Volume Level Shortfall Amount. Customers with multiple locations and/or multiple accounts in a group account will be evaluated on an individual account basis.

Discontinuance provisions apply as set forth in Section 2, except that, in place of the Annual Usage Commitment Level in the Discontinuance Charge calculation, Customers who sign a term agreement will be charged an amount equal to the monthly volume level commitment amount multiplied by the number of months remaining in the term, on a per-location basis. This discontinuance penalty applies at the time of cancellation regardless of amounts paid in excess of previous months' volume level commitment. In addition, the Company will seek repayment of all monthly and nonrecurring fees waived through the date of cancellation. In the event Customer is unable to continue to meet the percentage usage requirements for this product and service is terminated by the Company, no discontinuance charges will be assessed. If customer chooses to transfer service to an alternate product and service is subsequently terminated, Discontinuance Charges will apply under the new product.

Calls are billed in six (6) second increments following an initial billing period of eighteen (18) seconds. International service is offered in conjunction with intrastate and interstate service.
