TARIFF FORMAT

A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially within each Section. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page.

These numbers are used to determine the most current page version on file with the Commission. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14.

C. Paragraph Numbering Sequence - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:

2
2.1
2.1.1
2.1.1.1
2.1.1.1.1
2.1.1.1.1.1
2.1.1.1.1.1.1

D. Check Sheets - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

2.1.4.18 With respect to Emergency Number 911 Service (Cont'd.)

- a. When a Customer with a nonpublished telephone number, as defined herein, places a call to emergency 911 services, the Company will release the name and address of the calling party, where such information can be determined, to the appropriate local governmental authority responsible for emergency 911 services upon request of such governmental authority. By subscribing to service under this tariff, the Customer acknowledges and agrees with the release of information as described above.

2.1.4.19 The included tariff language does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause.

2.1.5 Notification of Service-Affecting Activities

The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

2.10 Allowances for Interruptions in Service (Cont'd.)

2.10.1 General (Cont'd.)

2.10.1.3 Repair Commitments

Commitments to the Customer for repair service will be set in accordance with Rule 503. The Company will make every reasonable attempt to fulfill repair commitments to its Customers. Customers will be timely notified of unavoidable changes. Failure to meet a repair commitment does not relieve the Company of the credited provisions in Rule 503.01, unless the Customer fails to keep an appointment the Customer agreed to when the original commitment was made.

2.10.1.4 Restoration of Service

When the Company providing local exchange is informed by a Customer of a local exchange service outage, the Company will:

When a Customer causes the Customer's own service outage or does not make a reasonable effort to arrange a repair visit within the service restoration deadline, or when the Company determines that the outage is attributable to the Customer's own equipment or inside wire, the Company is not required to provide to that Customer the credit referred to in Subsection 503.01.
