1.0 DEFINITION OF TERMS, (Continued)

NonSpecific Accounting Codes

These codes do not have specific numbers designated by the customer. All numbers from 001-999 are preprogrammed into the switch for these customers. Therefore any 3 digit number entered by the customer will allow the call to be completed.

Off-Network Access Line

A local exchange, foreign exchange, or WATS line connecting both incoming and outgoing traffic from the Carrier's switched service network to the public switched network.

Physical Change

The modification of an existing circuit, dedicated access line or port, made at the request of the customer, requiring equipment or facility rearrangement.

Premises

The space designated by a customer at its place or places of business for termination of the Carrier's service, whether for its own communications needs or for the use of its resale customers. In the case of a non-profit sharing group, this term includes space at each sharer's place or places of business as well as space at the customer's place of business.

Primary Interexchange Carrier

The interexchange carrier designated by the customer or assigned by the local exchange carrier to which outbound, intrastate toll calls are automatically routed without the use of an access code by the customer.

Service Group

One or more dedicated access lines terminated in the same multiline terminating device at the same time.

SPECIALIZED COMMON CARRIER SERVICE

2.0 GENERAL REGULATIONS

2.1 General Description

- 2.1.1 Carrier is a specialized common carrier providing communications long distance telephone service to customers for their direct transmission and reception of voice, data and other types of telecommunications. International communication services are provided only in conjunction with Carrier's domestic interstate communication services.
- 2.1.2 Customers may originate calls over switched services several ways; when the customer dials the desired telephone number (including an area code or country/city code); by dialing 10XXX then the desired telephone number; or, on a dial-up basis by calling the local access number or an 800 service number. Access may be provided over a dedicated access line or switched access line. When a call is originated using a dedicated access line, the DAL may be provided by the Carrier or the customer. When the customer provides the access arrangement, the Carrier can act as the customer's agent in obtaining access, but must in any event approved the design of any dedicated access facility the customer proposes to use. When a call is originated using a local access or 800 service number, the Carrier's equipment will answer the access call with a computer tone. The customer may enter his authorization number followed by the area code and desired telephone number. In all instances, communication charges will commence and terminate when the Carrier's switch determines that the call has commenced and terminated, respectively.

SPECIALIZED COMMON CARRIER SERVICE

2.0 GENERAL REGULATIONS

2.1 General Description

- 2.1.3 The customer's monthly usage charges are assessed based upon the time the customer uses the Carrier's intercity communication facilities as measured by the Carrier's electronic switching equipment, together with his use of service options, if any. Unless otherwise specified, calls will be measured from the time that either the calling or called party disconnects from the call, as indicated by answer supervision. No charge is made for calls not completed. It is never the Carrier's policy to charge a customer for uncompleted calls. A customer may dispute any charges by contacting the Carrier's Customer Service Department and proper credits issued if, upon investigation, the disputed charges are found to be incorrect. For billing purposes, the duration of each call will be rounded as specified in the description of each service option in the following sections. The rates per minute charged for service are set forth in Section 4.
- 2.1.4 At additional cost, and subject to availability, the customer may use accounting codes to identify the users groups on his account and to allocate the cost of his service accordingly. The numerical composition of such codes shall be set by the Carrier to assure compatibility with Carrier's account and automation systems and to avoid duplication of accounting codes.

2.0 GENERAL REGULATIONS, (Continued)

2.6 Payment and Billing

- 2.6.1 The customer is responsible for payment of all charges for services furnished to the customer's authorization code or equal access dialing phone number. Charges based on actual usage and all minimum charge provisions during the month will be billed monthly in arrears. Charges for installation, physical or administrative changes, or for cancellation of orders are payable upon completion.
- 2.6.2 Bills will be payable upon receipt. Interest at the rate of 1.5% per month (unless a lower rate is prescribed by law, in which event at the highest rate allowed by law) may be applied in accordance with Carrier's standard credit policy to any unpaid amount commencing 20 days after the statement date.
- 2.6.3 Carrier may require customer to submit a formal credit application. Applicants for service or customers whose financial condition is not acceptable to the Carrier or is not known to the Carrier, may be required at any time to make a deposit up to an amount equaling the installation charges, if applicable and/or up to one month actual or estimated charges for the services to be provided. Carrier may require a customer to increase the amount of an initial deposit if the actual amount of usage exceeds the original estimated level of usage upon which the deposit amount was calculated. Carrier may also require customers to provide other assurances of payment through the use of credit cards, bank accounts, debits or similar means. In the case of a cash deposit, interest at a rate not to exceed 6% simple interest (or the rate set by the Public Service Commission), will be paid for the period during which the deposit is held by the carrier. At the Carrier's option, such deposit may be refunded or credited to the customer at any time prior to the termination of service.
- 2.6.4 For the purpose of billing, the start of service is the day of acceptance by the customer of the Carrier's service.

SPECIALIZED COMMON CARRIER SERVICE

2.0 GENERAL REGULATIONS, (Continued)

2.6 Payment and Billing, (Continued)

2.6.4 (Continued)

The end of service or provision of equipment date is the last day after receipt by the Carrier of notification of discontinuance as described in Section 2.11.

2.6.5 The Carrier, at its option, may terminate service for nonpayment (after seven days advance written notification and will attempt to notify the customer directly at least 24 hours before scheduled termination) has been made to the customer of delinquency.

2.6.6 A reasonable handling charge, not to exceed \$10.00, will be assessed for all checks returned by the drawee bank for: insufficient or uncollected funds, closed account, apparent tampering, missing signature or endorsement, or any other insufficiency or discrepancy necessitating return of the instrument at the discretion of the drawee bank.

2.6.7 The customer shall give the Carrier prompt written notice of any disputed charges appearing on an invoice. After receiving notice of a dispute, the Carrier shall take reasonable steps to resolve such disputes. The customer shall pay all non-disputed charges while resolution of the disputed charges is pending.

2.6.8 In the event that legal action is instituted by Carrier to recover any sums then due and Carrier prevails, Carrier shall be entitled to recover its costs of collection, legal costs, court costs, and reasonable attorneys' fees, in addition to whatever other relief the court may award. Any sums then due shall earn interest at the rate of one and one-half (12) percent simple interest per month (unless a lower rate is prescribed by law, in which event at the highest rate allowed by law), from the date these sums were accrued until the entire debt is paid in full.

2.6 Payment and Billing, (Continued)

2.6.9 To obtain credits for wrong numbers, cut-offs, or poor transmission of calls, the customer has the following options:

- .1 An immediate inconvenience credit may be obtained for wrong numbers, cut-offs and poor transmission of calls by calling the Carrier's Customer Service Department. The immediate credit given may not be equal to the actual charge of the call in question, or;
- .2 The customer has the option upon obtaining his monthly invoice, to identify the specific charge for which he requests adjustment and submit a copy of the invoice to the Carrier's Customer Service Department to receive the requested credit. The credits for these calls are given in Section 2.19. The Carrier reserves the right to determine what charges in question receive a credit.

2.7 Liability, (Continued)

2.7.3 The Carrier shall be indemnified and held harmless by the customer against:

- a) Claims for libel, slander, infringement of copyright or unauthorized use of any trademark, trade name or service mark arising out of the material, data, information, or other content transmitted over the Carrier's facilities.
- b) Claims for patent infringement arising from combining or connecting the Carrier's facilities with apparatus and systems of the customer.
- c) All other claims arising out of any act or omission of the customer in connection with any service provided by the Carrier.

2.7.4 The Carrier's liability, if any, for its willful misconduct is not limited by this tariff. The Carrier shall not be harmless from any and all loss, claims, suits, or other actions, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or persons, for any personal injury to, or death of any person or persons, and for any loss, damage, defacement or destruction of the premises of the customer or any other property, whether owned by the customer or others, or for any incidental, special or consequential damages including interruption to business, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of any equipment provided by the Carrier (e.g., including but not limited to auto dialers, jacks, antennas, etc.), or wiring provided by the Carrier where such installation, operation, failure to operate, maintenance, condition, location or use is not the direct result of the Carrier's intentional acts. 2.0 GENERAL REGULATIONS, (Continued)

2.7 Liability, (Continued)

- 2.7.5 In no event shall the Carrier be liable to any customers for any damages caused by act or omission of any local exchange carrier or other third party in establishing the Carrier as the customer's primary interexchange carrier. The Carrier shall not be liable for any charges billed the customer by another carrier caused by a local exchange carrier's failure to process a request designating the Carrier as the customer's primary interexchange carrier or caused by an act or omission of any third party.
- 2.7.6 The Carrier reserves the right to transfer customer accounts to other carriers at the Carrier's sole discretion. The Carrier is not liable for any losses, damages, claims, suits, or other actions asserted by the customer due to the policies, procedures, service quality, or charges instituted by a carrier to whom the Carrier transfers customer accounts.
- 2.7.7 The above tariff language (2.7.1 to 2.7.6) does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause.

2.0 GENERAL REGULATIONS, (Continued)

2.8 Interruption of Service

Credit allowance for interruptions of service which are not due to the Carrier's testing or adjusting, or due to the negligence of the customer, or to the failure of channels, equipment and/or communications systems provided by the customer, are subject to the general liability provisions set forth in Section 2.7 herein. It shall be the obligation of the customer to notify the Carrier of any interruption in service. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission of the subscriber, not within his control, or is not in the wiring or equipment connected to the terminal of the Carrier.

2.9 Restoration of Service

The use and restoration of service in emergencies shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

2.10 Discontinuance by Carrier

2.10.1 The Carrier, by written notice to the customer, may immediately discontinue service or cancel an application for service without incurring any liability for any of the following reasons:

- a) Nonpayment of any sum due to the Carrier for service for more than 30 days beyond the date of rendition of the bill for such service;
- b) A violation of any regulation governing the service under this tariff;
- c) A violation of any law, rule, or regulation of any government authority having jurisdiction over the service;
- d) The Carrier is prohibited from furnishing services by order of a court or other government authority having jurisdiction.

- e) The customer has misrepresented his/her/its identity for purposes of obtaining service.

2.10.2 Discontinuance by Carrier (without cause)

The Carrier may discontinue service to the customer without cause after providing reasonable notice to the customer. Carrier will comply with IDAPA 31.D.3.4 notice requirements required prior to termination of service without cause.

2.11 Cancellation by Customer

Service will be provided until canceled by the customer. Cancellation by the customer must be provided in writing, on not less than thirty (30) days notice. If a customer orders service and then cancels his order before the service begins, before completion of the minimum period, or before completion of some other period mutually agreed upon, in writing, by the customer and the Carrier, a charge will be made to the customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the customer by the Carrier and not fully reimbursed by any assessed installation, minimum, and monthly charges (including those for the minimum service period). If, based on such order, any construction has either begun or been completed, and no service provided, the nonrecoverable cost of such construction shall be borne by the customer.

2.0 GENERAL REGULATIONS, (Continued)

2.12 Inspection, Testing and Adjustment

2.12.1 Carrier may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the requirements of this tariff are being complied with in the installation, operation or maintenance of the customer's or the Carrier's equipment. The Carrier may interrupt the service at any time, without penalty to itself, because of departure from any of these requirements except as provided below.

2.12.2 Upon reasonable notice, the facilities provided by the Carrier shall be made available to the Carrier for such tests and adjustments as may be necessary to maintain them in satisfactory condition. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.13 Change in Service Agreement

When a change in service arrangement involves the continued use by the customer of circuits furnished by Carrier, installation charges do not apply to the circuits continued in use. The minimum service period for the circuits contained in use is determined from the date of the initial installation thereof.

2.14 Local Charges

In certain instances, the customer may be subject to local telephone charges or message unit charges in using Carrier's service. Carrier is not responsible for any such local charges imposed directly on the customer by the local telephone company for gaining access to Carrier's intercity network.

2.15 Taxes and Surcharges

2.15.1 Customer will be billed for and is liable for payment of all applicable federal, state and local taxes, surcharges, utility, other assessments, taxes or fees, including such amounts as Carrier may be authorized to pass through to the customer.

2.15.2 When utility or telecommunications assessments, franchise fees, or privilege, license, occupational excise, or other similar taxes or fees, based on interstate receipts are imposed by certain taxing jurisdictions upon the Company or upon local exchange companies passed on to the Company through or with interstate access charges, the amounts of such taxes or fees may be billed to customers in such a taxing jurisdiction on a prorated basis. The amount of charge that is prorated to each customer's bill is determined by the interstate telecommunications services provided to and billed to a customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.

2.16 Terminal Equipment

2.16.1 The Carrier's facilities and service may be used with or terminated in customer-provided terminal equipment or customer-provided communication systems, such as teleprinters, handsets or data sets. Such terminal equipment shall be furnished and maintained at the expense of the customer, except as otherwise provided. The customer is responsible for all costs at his premises, including customer personnel, wiring, electrical power and the like, incurred in his use of Carrier's service.

2.16 Terminal Equipment, (Continued)

2.16.2 When such terminal equipment is used, the equipment shall comply with the minimum protective criteria set forth below and shall not interfere with service furnished to other customers. Additional protective equipment, if needed, shall be employed at the customer's expense. When service using local telephone company voice grade facilities is terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the following minimum protective criteria:

- a) When the facilities furnished under this tariff are used in common with local telephone company system services, it is necessary, in order to prevent excessive noise and cross-talk, that the power of the signal applied to local telephone company lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by the Carrier for each application, to be consistent with the signal power allowed on the telecommunications network.
- b) To protect the telecommunications services from interference at frequencies which are above the band of service provided, the Carrier will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to ensure that the input to local telephone company facilities does not exceed the limits indicated:
 - 1) The power in the band from 3,995 Hertz to 4,000 Hertz shall be at least 18 dB below the power of the signal as specified in subsection 2.16.2(a) preceding.

- 3) The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 dB below one milliwatt.
- 4) The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 dB below one milliwatt.
- 5) The power in the band above 40,000 Hertz shall not exceed 50 dB below one milliwatt.

2.16.3 Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service to prevent the interruption or disconnection of calls, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has energy solely in the 2450 to 2740 Hertz band. 2.16.4 Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the limits indicated in (a) through (d) following:

- a) The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor shall not exceed 0.35 ampere.
- b) The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.
- c) The conductor voltage shall be such that the conductor-to-ground voltage limit in (b) preceding applies to the conductor-to-conductor voltage.
- d) The total weighted rms voltage within the band from 50 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

<u>For Frequencies between</u>	<u>Weighting Factor</u>
50 Hertz and 100 Hertz	f /10
100 Hertz and 300 Hertz	f /10

3.0 SERVICE DESCRIPTION

3.1 Service Options

Following are detailed descriptions of certain Global services. Included are:

3.1.1 Option 1 (Allnet MTS)

One-way, multipoint service, designed for users of equal access service and available only in conjunction with Allnet's MTS interstate offering. Option 1 customers may originate calls several ways; by dialing 1 plus an area code and the desired telephone number; by dialing 10XXX then an area code and the desired number; or by dialing a local access number, an authorization code, and then the area code and desired telephone number.

a) Rate Structure

Charges for Option 1 are assessed based on length of call, time of day, and distance.

b) Usage Charges

The customer's total monthly use of the Carrier's Service Option 1 is charged at the applicable rates per minute set forth in Section 4.2, which are based on the airline distance between the originating and terminating locations of each call. For each call, the minimum charge shall be the applicable charge for one minute of use. Use in excess of one minute during a call is charged at the applicable rate per minute. Any fraction of an increment is rounded up to the next whole minute.

c) Ancillary Services

Calls made to Directory Assistance telephone numbers are charged on a per call basis.

3.1 Service Options, (Continued)3.1.2 Option 2 (MAXCESS I)

Option 2 is a one-way, intrastate multipoint service, designed for very high volume users and available only in conjunction with Allnet's Maxcess I interstate offering. Option 2 customers may originate calls via voice grade special access or high capacity (T1) access arrangements provided by the customer* between the customer's premises and Carrier's switch. The company reserves the right to limit service availability to Option 2 customers with a minimum requirement for 17 voice grade equivalent channels.

a) Rate Structure

Charges for Option 2 service are based on length of call, time of day, and distance.

b) Usage Charges

The customer's total monthly usage of Carrier's Option 2 service is charged at applicable rates set forth in Section 4.3. The duration of domestic calls is measured in six second increments. Any fraction of an increment is rounded up.

c) Ancillary Services

Calls made to Directory Assistance telephone numbers are charged on a per call basis.

* Monthly recurring and onetime installation charges apply for voice grade and high capacity dedicated access facilities and equipment used in establishing a communication link between the customer's premises and Carrier's switch. These charges will be billed to the customer directly by the local exchange carrier. A special access surcharge imposed by the local telephone company applies per voice grade channel unless the customer provides written certification to Carrier that the access arrangement is exempt from the surcharge. An access arrangement will be exempted from the monthly surcharge if it is not connected to a PBX or other device capable of interconnecting the access arrangement to a local exchange subscriber line.

Intrastate Allnet Solution is available for use only in conjunction with interstate Allnet Solution service offerings. Customers reselling or rebilling intrastate Solution service must have a certificate of Public Convenience and Necessity as an IXC from the Idaho Public Service Commission. Allnet Solution provides customers with a single per minute non-distance sensitive usage rate for all inbound and outbound usage. Solution customers may elect any combination of the following Solution service features:

Solution I	LEC-provided dedicated Access;
Solution II	LEC-provided switched access, high volume usage;
Solution III	LEC-provided switched access, low and medium volume usage;
Solution IV	LEC-provided switched access, high volume usage, short duration calls;
Solution 800	Provides an add-on inbound capability for Solution I, II, III and IV features.

Customers electing the Solution I feature may originate or receive calls via LEC-provided dedicated access lines. Charges for LEC-provided dedicated access facilities will be billed by the Customer's local exchange carrier. Customers who order Solution II, III, IV and Residential Solution features may originate or receive calls on their local business or residential lines; calls may be originated by dialing 1 plus an area code and the desired number; or 10444 plus the area code and telephone number.

3.1.14 ALLNET MULTIPPOINTK 800

Allnet Multipoint 800 Service is a shared, inward switched service which permits inbound calls, originated by dialing an "800" number to terminate at a Multipoint 800 customer's common line (i.e., business or residential line), provided a valid personal identification code number (PIRN) is entered by the caller. The Multipoint 800 customer is billed for the calls rather than the call originator. Multipoint 800 intrastate service is only available in conjunction with Multipoint 800 interstate service. Multipoint 800 service completes calls to a Carrier-assigned 800 telephone number. The PIRNS entered by the caller determine the customer-designated telephone number to which the 800 call will terminate. Each Customer may request any combination of the four digit PIRNS, excluding the PIRNs reserved for special use by the Company. Multipoint 800 service employs shared 800 telephone numbers and, by conversion to Multipoint 800 service, the Multipoint 800 customer releases any ownership or exclusive rights of its 800 telephone number to the Carrier. Under the nonvalidated option, Multipoint 800 customers may receive inbound Multipoint 800 calls even if the calling party enters no PIRN or an incorrect PIRN. Under the validated option, the Multipoint 800 customer may receive Multipoint 800 inbound calls only when the correct PIRN is entered by the calling party.

Product One customers electing either a two or three year term plan agreement will receive the applicable per minute discount off the base one year term plan rates. The applicable per minute discounts are set forth in Section 4. Product One customers may elect either a switched or dedicated access option (or both) for Term Plans III, IV, V, or VI. Term Plans II, V and VI may use switched access only in conjunction with a dedicated access option. The MTM option is only available on a switched access basis. Product One customers electing a dedicated access option will be billed by their local exchange carrier or alternative provider for all monthly and nonrecurring charges associated with the dedicated access facilities required to access Global. Product One Term Plan options will automatically renew for successive periods of one year unless the Product One Term Plan customer notifies Global in writing before the end of the term that the Term Plan customer intends to terminate the agreement at the completion of the current term. 3.1.19 FRONTIER FLEX CONNECT 8XX

Frontier Flex Connect 8xx is a shared, inward switched service which permits inbound calls, originated by dialing an 8xx number to terminate at a Multipoint 8xx customer's common line (i.e. business or residential line), provided a valid personal identification routing number ("PIRN") is entered by the caller. The Flex Connect customer is billed for the calls rather than the call originator. Flex Connect 8xx service completes calls to a Carrier assigned 8xx telephone number. The PIRNs entered by the caller determine the customer designated telephone number to which the 8xx call will terminate. Upon request, from one to a maximum of ten PIRNs may be assigned by the Carrier to the customer excluding the PIRNs reserved for special use by the Carrier. Requests for four or more PIRNs are subject to credit approval by the Carrier. Flex Connect 8xx service employs shared 8xx telephone numbers and, by conversion to Flex Connect 8xx service, the Flex Connect 8xx customer releases any ownership or exclusive rights of its 8xx telephone number to the Carrier.

Charges for Flex Connect 8xx service are assessed based on the time of day and length of call, set forth in Section 4 following.

The applicable per minute usage rates are set forth in Section 4 following. Flex Connect 8xx calls are billed in six second increments, with a thirty second minimum for each call. Any fraction of an increment will be rounded up to the next whole increment.

3.1.26 FRONTIER VOICE VIRTUAL PRIVATE NETWORK

Frontier Voice Virtual Private Network ("VPN") provides the Customer the functionality and capabilities of a private network through the use of shared and/or dedicated transmission facilities, which permits the Customer to establish a communications path between two Customer locations by using a Customer-defined Private Numbering Plan ("PNP"). The following call types are available to Frontier Voice VPN Customers:

- 1) Dedicated to Dedicated: provides PNP type calls between locations linked by dedicated access. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 2) Dedicated to Switched: calls originating from a VPN Customer's dedicated location and terminate on switched facilities either within or outside the Customer's PNP. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 3) Switched to Dedicated: calls originating from a switched location within a Customer's PNP and terminate on a dedicated location within the PNP. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 4) Switched to Switched: calls originate from a switched location within the Customer's PNP and terminate on a switched location either within or outside the PNP. All calls are billed in six second increments with a eighteen second minimum for each call. Any fraction of an increment will round up to the next whole increment.

- 5) 8XX Remote access to Switched/Dedicated: calls originate from a switched location via a VPN 8XX remote access number and terminate to a switched/dedicated location within the Customer's PNP. A VPN personal code is used to verify that the caller is authorized to make VPN calls. The PNP code must be a uniform length not to exceed 10 digits. All 8XX remote access calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment will round up to the next whole increment.

Frontier Voice VPN service charges consist of both recurring and non-recurring charges. Recurring charges consist of flat monthly charges and usage-based charges. Flat monthly charges apply whether or not the service is used. Usage charges apply to all completed calls. The usage charges apply to all call types, 24 hours a day 7 days a week. All recurring, non-recurring, volume and term discounts applicable to Frontier Voice VPN service are set forth in Section 4 following.

The Frontier Voice VPN Customer must have T-1 access from at least one of their locations into one of the Company's switches equipped to provide VPN service. Additional connections to the VPN network can be either via dedicated, switched or remote access.

The Customer can originate calls via dedicated access and switched access. With switched access, Customer originated calls are connected to the Company network via a dial access basis. Switched access calls include those originating from the Customer's VPN lines pre-subscribed to the Company and using 1+ or 1+700 dialing plans.

For a one time setup charge a Switched Overflow option is available to the Frontier Voice VPN Customer. Switched Overflow will route any call placed from any PNP location terminating to a dedicated PNP location, to a switched plain old telephone service (POTS) number at the dedicated terminating location if the dedicated facility is busy or the network is at capacity. The setup charge applicable to this option is set forth in Section 4 following.

Customers may subscribe to Frontier Voice VPN on a one, two or three year term plan and may select from 4 monthly minimum usage levels (MMUL). Beginning with the Customers' fourth invoice, and for the remaining months of any term plan commitment, the Customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL. Term Plan Customers are eligible to receive tariffed volume discounts set forth in Section 4, each month based on its VPN MMUL commitment.

Voice VPN Term Plan Customers whose monthly gross account usage exceeds the next higher MMUL above the level to which the subscriber has committed will receive the discount applicable to the next higher MMUL. Discounts on all monthly gross account usage will be capped at the discount level applicable to the next higher MMUL. Volume discounts are calculated off the Frontier Voice VPN Month-to-Month rates in effect when calls are made. The discounts apply to VPN usage (outbound and remote access) only and do not apply to non-recurring or monthly recurring charges nor to operator/directory assistance and value added service usage. Volume discounts are not available to Customers subscribing to Frontier Voice VPN Month-to-Month service. In addition, Frontier Voice VPN customers who commit to a service term may receive additional discount credits as set forth in Section 4 following. Term plan options will automatically renew for successive periods of one year unless the Customer notifies the Company in writing before the end of their current term that the Customer intends to terminate the agreement at the completion of the term. The Company will notify the term plan customer at least 60 days prior to the end of the current term that the end of their current term is approaching. Customers choosing not to renew their term plan option will be assessed the Frontier Voice VPN Month-to-Month tariff rate currently in effect. A termination fee, equal to the MMUL of the term plan that the Frontier Voice VPN customer is subscribing, times the number of months remaining in the current term will be assessed to customers terminating service prior to the completion of their current term of service.

3.1.31 Web Beta

Web Beta is a switched, non-distance sensitive, flat rated long distance service which provides Customers with a single rate for both outbound (1+) and inbound (8XX) calls.

(D)

a) Enrollment

To subscribe to Web Beta service, Customers must enroll via a Company-designated Internet site. Customers must subscribe to Web Beta outbound (1+) service in order to qualify for Web Beta inbound (8XX). Web Beta Customers must also commit to a \$25 Minimum Monthly Usage Level (MMUL). Beginning with the Customer's second monthly invoice, the Customer will be charged either their actual total monthly usage, or the MMUL, whichever is greater. All of the Customer's intrastate, interstate, and international Web Beta per minute usage charges will count towards the Customer's MMUL.

(D)

b) Usage Charges

Web Beta outbound and inbound calls are billed in six-second increments with a minimum billing increment of eighteen seconds per call. Any fraction of an increment is rounded up to the next whole increment. Travel Card calls are billed in six second increments with a minimum billing of 30 second per call and any fraction of an increment is rounded up to the next whole increment.

3.1 Service Options, (Continued)3.1.33 Incentive Plan

Incentive Plan is a long distance service which provides Customers with single per minute rates for both their inbound (8XX) and outbound (1+) switched and dedicated access usage.

a) Rate Structure

Incentive Plan switched and dedicated calls are non-distance sensitive, usage based, and flat rated.

b) Usage Charges

The Customer's total intrastate monthly usage of Incentive Plan (switched, dedicated) service is charged at the applicable per minute rates set forth in Section 4 following. Incentive Plan switched inbound (8XX) and outbound (1+) calls are billed in six-second increments with a thirty-second minimum for each call. Incentive Plan dedicated inbound (8XX) and outbound (1+) calls are billed in six-second increments with an eighteen-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Incentive Plan Customers may subscribe to either a month-to-month, one year or two year term plan. A per minute base rate set forth in Section 4 following, is applicable to the inbound (8XX) and outbound (1+) switched and dedicated service plans. There are minimum monthly usage levels (MMUL) for each (switched, dedicated) term plan option, as set forth in Section 4 following. Beginning with the Customer's second invoice, and for the remaining months of any term plan commitment, the Customer will be charged the difference between the gross account usage and the MMUL if the gross usage is less than the MMUL. The MMULs and applicable discounted per minute usage rates are set forth in Section 4 following.

Enterprise Voice Services II is a long distance service which provides customers with single per-minute rates for their outbound (1+) switched, dedicated and toll free access usage.

a) Rate Structure

Enterprise Voice Services II switched, dedicated and toll free calls are non-distance sensitive, usage based, and flat rated.

b) Usage Charges

The Customer's total intrastate monthly usage of Enterprise Voice Services II (switched, dedicated and toll free) and the monthly usage commitment levels are charged at the applicable per minute rates set forth in Section 4.35 in this tariff. Enterprise Voice Services II dedicated calls are billed in six-second increments with a six-second minimum for each call. Enterprise Voice Services II switched calls are billed in eighteen-second increments with a six second minimum for each call.

Enterprise Voice Services II customers will be billed based on a six-tier category. All Tiers contain a minimum charge of \$500.00. A Customer's Tier can vary from month-to-month and is dependent on the customers overall monthly voice usage.

Enterprise Voice Services II discounts are based on one, two or three year term commitments and will commence at the \$501.00 level. The Customer's total voice usage will determine the Customer's Tier and the applicable discount. All usage is applicable to the accumulation, with the exception of voice loops and/or data services.

SPECIALIZED COMMON CARRIER SERVICE

5.0 PROMOTIONAL OFFERINGS

5.1 Promotional Offerings

The Company may from time to time engage in special promotional trial service offerings of limited duration designed to attract new customers or to increase existing customer awareness of a particular tariff offering. Requests for promotional offerings will be presented to the Commission for its review, in accordance with Rules and Regulations established by the Commission, and will be set forth below:

5.1.1 Allnet Maxcess III MAX® MISER Promotion

Allnet Maxcess III customers who sign up for service after December 23, 1993, may be eligible to receive (in conjunction with Global's interstate MAX® MISER promotion), a discount credit of 10% which will be applied for a period of 12 consecutive months to all Maxcess III outbound calls which are made to single area code or international country with the highest total usage (in dollars) in the period for which a bill is being calculated. Calls to directory assistance and operator services are excluded from this discount credit.

5.1.2 Solution II ASP Promotion

Allnet Solution II customers located in the 208 area code who sign up for a one year term of service after March 1, 1994, may be eligible to receive (only in conjunction with Global's interstate Solution II ASP Promotion), a discount credit of 6.89% off of their outbound and inbound (800) total monthly business hour usage, and a discount credit of 5.03% off of their total monthly outbound and inbound (800) off-hour usage. Solution II ASP customers who finish their one year term will then be eligible to receive a discount credit of 23.23% off of their outbound and inbound (800) total monthly business hour usage, and a discount credit of 4.87% off of their months of service. The discount credit is in lieu of any other applicable promotional discount credits during the same time period. The discount credits set forth above apply for an initial period of 12 consecutive months of service, and an additional 9 consecutive months of service at the customer's option.

5.1.3 HCC Promotion

Global may provide the former customers of Hospitality Communications Corporation (Hospitality) Solution I and Solution II services at customer-approved Hospitality rates that are less than Solution I and Solution II rates, respectively, if those customers switch to Global by August 1, 1995.
