PRICE LIST FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the price list. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the price list page in effect. Consult the Check Sheet for the page currently in effect.

- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).

- D. Check Sheets** - When a price list filing is made with the Commission, an updated Check Sheet accompanies the price list filing. The Check Sheet lists the pages contained in the price list, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The price list user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

Institutional automated collect operator service allows inmates to make collect calls to terminating locations anywhere within in the state. An automated system prompts the caller and the called party through user - friendly instructions. The called party must accept responsibility for payment of the charges by dialing the designated digit for acceptance. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is terminated by ICS' system.

Use of the automated collect calling service is subject to the rules and regulations of the Commission and the institution's administrative restrictions.

3.3.1 Classes of Calls

Automated Collect Station Calls: are calls which are placed by an Inmate who dials all of the digits required to route the call and who follows the ICS system prompts, enabling the Called Party to accept the charges for the call. If the Called Party does not accept the call, the call is terminated and no billing applies

3.4 ICS Prepaid Institutional Calling Services

3.4.1 General

ICS Prepaid Institutional Calling Services provide alternative payment arrangements for inmates in Confinement Institutions. This service is designed to offer a calling alternative for the following circumstances:

- A) Called parties who utilize the services of local exchange carriers that do not offer third party billing of collect calls; and
- B) Called parties whose credit history is inadequate to receive collect calls; and
- C) Inmates who wish to utilize their commissary funds for call placement; and

Prepaid Institutional Calling Services are not subject to the Deposit and Advance Payment provisions found in Section 2.

Two options are available with Prepaid Institutional Calling Services. The first option, the Debit Card/Debit Account , allows the inmate (via the Institution personnel) to set up his/her own account/card at the Confinement Institution ; the second option, Prepaid Collect Service, allows the Called Party who receives collect calls from inmates to set up his/her own prepaid account.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)

3.4 ICS Prepaid Institutional Calling Services, (Cont'd.)

3.4.1 General, (Cont'd.)

A. Prepaid Debit Service

(T)

With a Debit Card or Debit Account, each inmate has the option to transfer funds from his/her commissary account to purchase a debit card or have calls paid for directly out of the inmate's commissary account. This is accomplished by facility personnel or through a direct interface between the commissary system and the inmate phone system. This account is associated with the inmate's Personal Identification Number (PIN.) When the inmate places a call, he/she has the option of calling collect or debit. Once debit is selected, the inmate enters the PIN and called telephone number. All purchases on a Debit Account are paid to and handled by the Institution. The Company receives payment from the Institution; it does not engage in direct monetary transactions with the inmate. Debit cards or Debit Accounts may be purchased in any amount subject to the requirements or restrictions of the Confinement Institution.

(T)

(T)

(T)

The Company's system automatically informs the caller of the amount of purchased services applied to or remaining on the Prepaid Account, and provides prompts to place the call by entering the destination telephone number. The charge for network usage is deducted from the Account on a real time basis as the call progresses.

(T)

|

|

(T)

Debit Card or Debit Account services expire six (6) months from the date of purchase/sale. Since services are consumed in the order purchased, each new purchase will typically reset the expiration timeframe. Consumers may cancel services and request a refund prior to expiration. No refunds will be issued after the service expiration date.
