**Call Trace:** Allows a called party to initiate an automatic trace of the last call received and is available for Local Line customers. After receiving an offending call, the customer must hang up and dial the feature code \*57 (1157 for rotary phones) prior to receiving another inbound call. After dialing the feature code, the customer receives a recording that indicates that the trace was successful, and that the originating number has been captured and forwarded to the Company. The recording will also provide the customer a toll free number to the Company's Annoyance Call Bureau (ACB) Center for the customer to call for further action or to speak to an ACB representative. An ACB representative advises the customer that the telephone numbers of calls identified as harassing shall be released only to authorized investigative or law enforcement officers. This information will not be given directly to the customer. Customers will be instructed to file a complaint with the appropriate law enforcement officials. Information on originating telephone number identified as harassing are released verbally to law enforcement with proof of identification. A subpoena is required before written records may be released to law enforcement. The Company is not liable for damages if, for any reason, the call trace attempt is not successful. The practices of law enforcement officials vary, and the Company does not represent that any action taken by such officials with regard to the traced number.

## LOCAL EXCHANGE SERVICE

2. Regulations (Cont'd)2.1 Undertaking of the Company (Cont'd)2.1.4 Liability of the Company

"The included tariff language does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause."

(The Commission expressly reserves judgment on the propriety of all such tariff provisions pending a Commission rule making on what, if any, liability-limiting language is appropriate.

2.1.4.1 The liability of the Company for damages arising out of the furnishing of its services, including but not limited to mistakes, omissions, interruptions, delays, or errors, other defects, or representations by the Company, or use of these services or damages arising out of the failure to furnish the service whether caused by acts or omission, shall be limited to the extension of allowances for interruption as set forth in Section 2.6, below. The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to Customer as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company's employees or agents.

2.1.4.2 The Company's liability for willful misconduct, if established as a result of judicial or administrative proceedings, is not limited by this Tariff. The Company's liability, if any, with regard to delayed installation of Company facilities or commencement of service, shall not exceed \$1,000. With respect to any other claim or suit, by a Customer or by any others, for damages associated with the ordering (including the reservation of any specific number for use with a service), installation (including delays thereof), provision, termination, maintenance, repair, interruption or restoration of any service or facilities offered under this Tariff, and subject to the provisions of Section 2.6, the Company's liability, if any, shall be limited as provided herein.

2.5.5 Deposits

2.5.5.1 Applicants for service or existing Customers whose financial condition is not acceptable to the Company, or is not a matter of general knowledge, may be required at any time to provide the Company a security deposit. The deposit requested will be in cash or the equivalent of cash, and will be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation.

2.5.5.2 For Residential Service customers, the deposit will not exceed an amount equal to two times the estimated amount of one month's average bill for a service or facility which has a minimum payment period of one month. The Company shall be entitled to require such an applicant or Customer to pay all its bills within a specified period of time, and to make such payments in cash or the equivalent of cash. At the Company's option, such deposit may be refunded to the Customer's account at any time. Also, the Company reserves the right to cease accepting and processing Service Orders after it has requested a security deposit and prior to the Customer's compliance with this request.

2.5.5.3 A deposit may be required in addition to an advance payment.

2.5.5.4 When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account.

2.5.5.5 Unless a different rate is specified in a business customer's contract, deposits held for business customers will accrue interest at the rate determined by the Idaho Public Utilities Commission (IDAPA 31.41.01 Rule 106.22).

## LOCAL EXCHANGE SERVICE

2. Regulations (Cont'd)2.5 Payment Arrangements (Cont'd)2.5.6 Discontinuance of Service (Cont'd)

2.5.6.8 Upon the Company's discontinuance of service to the Customer under Section 2.5.6.1 or 2.5.6.2, all applicable charges, including termination charges, shall become due. This is in addition to all other remedies that may be available to the Company at law or in equity or under any other provision of this Tariff.

2.6 Quality of Service:

2.6.1 Service Standards: Each telephone company providing local exchange service pursuant to Title 61, Idaho Code, is required to employ prudent management and engineering practices to ensure that customers receive the best quality of service practicable. Each telephone company is required to adopt and pursue a maintenance program aimed at achieving efficient operation of its systems to render safe, adequate and uninterrupted service. These programs must include guidelines for keeping all plant and equipment in good repair, including the following:

- a. Broken, damaged or deteriorated equipment must be promptly repaired or replaced; and
- b. Transmission problems (including induction, cross-talk, or other poor transmission on any line) must be promptly corrected when located or identified.

2.6.2 Service Outage. If a customer's local telephone service quality deteriorates to such an extent that the customer cannot make local calls or cannot receive local calls or cannot use the service for voice grade communication because of cross-talk, static or other transmission problem, the telephone company must respond to a customer's report of such a "service outage" in accordance with Rule 503. Customer's bills must be appropriately and automatically credited pursuant to the terms of Rule 503.

2. Regulations (Cont'd)2.6 Quality of Service: (Cont'd)2.6.3 Response to Service Outage:

2.6.3.1 Receipt and Recording of Reports: Each telephone company providing local exchange service pursuant to Title 61, Idaho Code, shall provide for the receipt of customer trouble reports at all hours and make a full and prompt investigation of and response to all reports. The telephone company shall maintain an accurate record of trouble reports made by its customers. This record shall include accurate identification of the customer or service affected, the time, date and nature of the report, the action taken to clear the trouble or satisfy the customer, and the date and time of trouble clearance or other disposition. This record shall be available to the Commission or its authorized representatives upon request at any time within two (2) years of the date of the record.

2.6.3.2 Repair Commitments: Commitments to customers for repair service shall be set in accordance with Rule 503. Each telephone company shall make every reasonable attempt to fulfill repair commitments to customers. Customers shall be timely notified of unavoidable changes. Failure to meet a repair commitment does not relieve the telephone company of the credit provisions in Rule 503.01, unless the customer fails to keep an appointment the customer agreed to when the original commitment was made.

2.6.4 Repair Service Standards:

2.6.4.1 Restoration of Service: When a telephone company providing local exchange service pursuant to Title 61, Idaho Code, is informed by a customer of a service outage as described in Subsection 501.02, the telephone company must:

- a. Restore service within sixteen (16) hours after the report of the outage if the customer notifies the telephone company that the service outage creates an emergency for the customer, or
- b. Restore service within twenty-four (24) hours after the report of the outage if no emergency exists, except that the outages reported between noon on Saturday and 6:00 p.m. on the following Sunday must be restored within forty-eight hours or by 6:00 p.m. on the following Monday, whichever is sooner. If the telephone company does not restore service within the times required by this subsection the telephone company must credit the customer's account for an amount equal to the monthly rate for one (1) month of basic local exchange service.

2. Regulations (Cont'd)2.6 Quality of Service: (Cont'd)2.6.4 Repair Service Standards: (Cont.)

2.6.4.2 Extenuating Circumstances: Following disruption of telephone service caused by natural disaster or other causes not within the telephone company's control and affecting large groups of customers, or in conditions where the personal safety of an employee would be jeopardized, the telephone company is not required to provide the credit referred to in Subsection 503.01 as long as it uses reasonable judgement and diligence to restore service, giving due regard for the needs of various customers and the requirements of the telecommunications service priority (TSP) program ordered in FCC Docket 88-341 (47 C.F.R. Part 64 Appendix A). When a customer causes the customer's own service outage or does not make a reasonable effort to arrange a repair visit within the service restoration deadline, or when the telephone company determines that the outage is attributable to the customer's own equipment or inside wire, the telephone company is not required to provide to that customer the credit referred to in Subsection 503.01.

2.6.4.3 Compliance Standard: Each month at least ninety percent (90%) of out-of-service trouble reports shall be cleared in accordance with Subsections 503.01 and 503.02. The telephone company shall keep a monthly service record as described in Subsection 502.01 and shall notify the Commission whenever the record indicates the ninety percent (90%) level as not been met for a period of three (3) consecutive months.

2.7 Cancellation of Service2.7.1 Cancellation of Application for Service

2.7.1.1 Applications for service are noncancellable unless the Company otherwise agrees. Where the Company permits Customer to cancel an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.

2.7.1.2 Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of service ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun.

2.7.1.3 The special charges described in 2.7.1.1 and 2.7.1.2 will be calculated and applied on a case-by-case basis.

3.1 Residential (Cont.)

3.1.9 Pay Per Use Features

**Call Return (\*69)** This feature enables the customer to dial back the number of the last incoming call whether the call was answered or not. If the line is busy call return will keep trying to complete the call for 30 minutes.

**Call Trace (\*57)** Provides a detailed record of last incoming call, including call-waiting calls. It automatically records the phone number, time, and date of the call. MCI security processes this information and provides it to the appropriate law enforcement agency should you decided to file a complaint. Cannot be selected with Block Call Trace.

**Repeat Dialing (\*66)** Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard. The customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed. In some locations, due to technological limitations Repeat Dialing must be purchased with Call Return.

**3-Way Calling (\*71)** Allows another party to be added to a call already in progress. The added party may be local or long distance. Toll or local measured service charges will apply to each leg of a 3-Way Call. Cannot be selected with Block Three Way Calling.

Once the incoming call arrives at the last line in the Hunt Group, the line will either ring, provide a busy signal, or be sent to voice mail.

**Hunting -Circular** - Incoming calls are routed to a sequence of telephone numbers ("Hunt Group") on the account; the sequence is selected by the customer. Once the incoming call arrives on a single line of the Hunt Group, if the line is busy, the call will circle back to the line immediately preceding the line on which the call originated in the hunt sequence, which will either ring, provide a busy signal, or send the call to voice mail.

LOCAL EXCHANGE SERVICE

## 3. Local Exchange Service (Cont.)

3.2 Small Business Service (Cont.)3.2.10 PAY-PER-USE FEATURES

**Call Return (\*69)** This feature enables the customer to dial back the number of the last incoming call whether the call was answered or not. If the line is busy call return will kept trying to complete the call for 30 minutes.

**Call Trace** Provides a detailed record of last incoming call, including call-waiting calls. It automatically records the phone number, time, and date of the call. MCI security processes this information and provides it to the appropriate law enforcement agency should you decided to file a complaint. Cannot be selected with Block Call Trace.

**Repeat Dialing (\*66)** Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard. The customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed. In some locations, due to technological limitations Repeat Dialing must be purchased with Call Return.

**Three-Way Calling** Allows another party to be added to a call already in progress. The added party may be local or long distance. Toll or local measured service charges will apply to each leg of a 3-Way Call. Cannot be selected with Block Three Way Calling.
