I.P.U.C. No. 1
**Third Fourth Revision of Sheet No. B.2
 Canceling Second Third Revision of Sheet No. B.2**
ELECTRIC SERVICE SCHEDULES - Continued

Schedule No.	Class of Service	Sheet No.
23	General Service - Small Power	23.1 - 23.3
23A	General Service - Small Power (Residential and Farm)	23A.1 - 23A.4
24	Interruptible Power Service	24.1 - 24.5
34	Pacific Northwest Electric Power Planning and Conservation Act - Residential and Farm Kilowatt-Hour Credit	34.1 - 34.16
35	Optional Time-of-Day General Service - Distribution Voltage	35.1 - 35.3
35A	Optional Time-of-Day General Service - Distribution Voltage (Farm)	35A.1 - 35A.4
36	Optional Time of Day Residential Service	36.1 - 36.3
70	Renewable Energy Rider - Optional	70.1 - 70.4
71	Energy Exchange Pilot Program	71.1 - 71.6
72	Irrigation Load Control Credit Rider	72.1 - 72.5
72A	Irrigation Load Control Credit Rider Dispatch Pilot	72A.1 - 72A.4
73	Renewable Energy Rider - Optional - Bulk Purchase Option	73.1 - 73.4
115	Commercial and Industrial Energy Efficiency Incentives Optional for Qualifying Customers	115.1 - 115.4013
117	Residential Refrigerator Recycling Program	117.1 - 117.2
118	Home Energy Saver Incentive Program	118.1 - 118.2
120	Commercial Energy Services - Optional to Qualifying Customers	120.1 - 120.8
122	Commercial Energy Services - Optional to Qualifying Customers	122.1 - 122.5
125	Energy FinAnswer	125.1 - 125.9

Submitted Under Order No. 30482

ISSUED: ~~December 28, 2007~~ February 14, 2008

EFFECTIVE: January April 1, 2008

I.P.U.C. No. 1

First Revision of Sheet No. 115.1
Canceling Original Sheet No. 115.1

ROCKY MOUNTAIN POWER
ELECTRIC SERVICE SCHEDULE NO. 115

STATE OF IDAHO

~~Commercial and Industrial Energy Efficiency Incentives~~
~~Optional for Qualifying Customers~~
FinAnswer Express

PURPOSE: Service under this Schedule is intended to maximize the efficient utilization of the electricity requirements of new and existing loads in Commercial Buildings and Industrial Facilities through the installation of Energy Efficiency Measures. ~~Service under this Schedule is subject to funds availability.~~

APPLICABLE: To service under the Company's General Service Schedules 6, 6A, 8, 9, 12, ~~17~~, 19, 23, 23A, 24, 35 and 35A in all territory served by the Company in the State of Idaho. This Schedule is applicable to new and existing Commercial Buildings and Industrial Facilities, and dairy barns served under the Company's residential rate schedules, ~~and traffic signals.~~

DEFINITIONS:

Commercial Building: A structure that is served by Company and meets the applicability requirements of this tariff at the time an Energy Efficiency Incentive Agreement/Application is executed or approved by the Company which does not meet the definition of an Industrial Facility.

Customer: Any party who has applied for, been accepted and receives service at the real property, or is the electricity user at the real property.

Energy Efficiency Incentive: Payments of money made by Company to Owner or Customer for installation of an Energy Efficiency Measure pursuant to an executed Energy Efficiency Incentive Agreement or approved Application.

Energy Efficiency Incentive Agreement/Application: An agreement between Owner or Customer and Company or a Company provided application submitted by the Owner or Customer and approved by the Company providing for Company

Submitted Under Advice Letter No. ~~06-06~~ Case No. PAC-E-08-01

ISSUED: ~~August 14, 2006~~ February 14, 2008
2006 April 1, 2008

EFFECTIVE: ~~September 15,~~

to furnish Energy Efficiency Incentives with respect to Energy Efficiency Measures pursuant to this Tariff Schedule.

(Continued)

Submitted Under ~~Advice Letter No. 06-06~~ Case No. PAC-E-08-01

ISSUED: ~~August 14, 2006~~ February 14, 2008
~~2006~~ April 1, 2008

EFFECTIVE: ~~September 15,~~

ELECTRICAL SERVICE SCHEDULE NO. 115 (Continued)

DEFINITIONS: (Continued)

Energy Efficiency Measure (EEM): A permanently installed measure which can improve the efficiency of the Customer's electric energy use.

Energy Efficiency Measure (EEM) Cost:

New Construction/Major Renovation: EEM Cost is the total installed cost of energy efficiency equipment or system minus the cost of the code compliance/common practice equipment or system.

Retrofit: EEM Cost is the total installed cost of the energy efficiency equipment or modification.

In the case of both ~~New Construction~~, Major Renovation and ~~Retrofits~~, EEM Costs shall mean the Owner or Customer's reasonable costs incurred (net of any discounts, rebates or incentives other than Energy Efficiency Incentives from the Company, or other consideration that reduces the final actual EEM Cost incurred by the Owner or Customer) to purchase and install EEMs at the Owner's or Customer's facility. If the owner or customer installs the EEM then the cost of installation shall be equal to the Owner's or Customer's actual labor costs for such installation.

Energy Efficiency Project: One or more EEM(s) with similar one year payback limitations (below) covered by one Energy Efficiency Incentive Agreement, ~~or approved application.~~

Energy Efficiency Project Cost: The sum of EEM Costs for one or more EEM(s) with similar one year payback limitations (see below) covered by one Energy Efficiency Incentive Agreement.

Industrial Facility: Buildings and process equipment associated with manufacturing.

Major Renovation: A change in facility use type or where the existing system will not meet Owner/Customer projected requirements within existing facility square footage.

Mixed Use: Buildings served by a residential rate schedule and a rate schedule listed under **Applicable** shall be eligible for services under this schedule provided the Energy Efficiency Project meets the definition of New Construction or where the Company adjusts the baseline energy consumption and costs.

I.P.U.C. No. 1

First Revision of Sheet No. 115.2
Canceling Original Sheet No. 115.2

~~New construction: A newly constructed facility or newly constructed square footage added to an existing facility.~~

(Continued)

~~Submitted Under Advice Letter No. 06-06~~ Case No. PAC-E-08-01

~~ISSUED: August 14, 2006~~ February 14, 2008
2006 April 1, 2008

EFFECTIVE: September 15,

ELECTRICAL SERVICE SCHEDULE NO. 115 (Continued)

DEFINITIONS: (Continued)

New construction: A newly constructed facility or newly constructed square footage added to an existing facility.

Owner: The person who has both legal and beneficial title to the real property, and is the mortgager under a duly recorded mortgage of real property, the trustor under a duly recorded deed of trust.

Retrofit: Changes, modifications or additions to systems or equipment in existing facility square footage.

INCENTIVE FOR ENERGY EFFICIENCY MEASURES: The Company will provide Energy Efficiency Incentives per the Provisions of Service and the Energy Efficiency Incentive caps table below to participating Owners or Customers who have installed EEM(s) listed in the incentive tables in this schedule or are eligible for an Energy Efficiency Incentive per the formula listed below.

~~Energy Efficiency Projects consisting of Retrofit lighting EEMs (listed & not listed) and/or other Retrofit EEMs are eligible for Energy Efficiency Incentives provided the simple payback (based on electricity cost savings) before incentives is one year or more. EEMs with simple paybacks before incentives of less than one year are eligible for Energy Efficiency Incentives provided the Energy Efficiency Project has a simple payback before incentives of one year or more. Energy Efficiency Incentives will not be available to reduce the simple payback of an Energy Efficiency Project below one year. If required, individual EEM Energy Efficiency Incentives will be adjusted downward pro rata so the Energy Efficiency Project has a simple payback after incentives of one year or more. Retrofit motor and Mechanical EEMs (listed on Tables 2 and 3 & not listed) and New Construction EEMs are not subject to the payback limitations listed above.~~

~~————EEMs not listed in the incentive tables may be eligible for Energy Efficiency Incentives. Electric savings resulting from lighting interaction with mechanical equipment will not be eligible for an Energy Efficiency Incentive. The Company will complete an analysis of the EEM Cost and electric energy savings and determine at its sole option whether to offer an custom Energy Efficiency Incentive and the Energy Efficiency Incentive amount. Custom Energy Efficiency Incentives for such EEMs will be the lesser of (a) the product of multiplying the Company's estimate of annual energy savings by \$0.08/kWh; or (b) 35% of the EEM Cost as determined by the Company and subject to the incentive caps in the table below. Electric savings resulting from lighting interaction with mechanical equipment will not be eligible for an Energy Efficiency Incentive.~~

Energy Efficiency Incentive caps table

Submitted Under Advice Letter No. 06-06 Case No. PAC-E-08-01

ISSUED: August 14, 2006 February 14, 2008
2006 April 1, 2008

EFFECTIVE: September 15,

	<u>Measures Listed in Incentive Tables</u>				<u>Measures Receiving Custom Incentive</u>
	<u>Lighting</u>		<u>Motors</u>	<u>Mechanical/Envelop/Other</u>	
	<u>Retrofit</u>	<u>NC/MR</u>			
<u>Percent of Energy Efficiency Project Cost cap</u>	<u>50%</u>	<u>None</u>	<u>None</u>	<u>None</u>	<u>50%</u>
<u>1 year simple payback cap for Energy Efficiency Project</u>	<u>Yes</u>	<u>No</u>	<u>No</u>	<u>No</u>	<u>Yes</u>

Company may adjust baseline electric energy consumption and costs to reflect any of the following: energy codes, standard practice, changes in capacity, changes in production or facility use and equipment at the end of its useful life. Such adjustments may be made for lighting energy efficiency measures installed in New eConstruction/Major Renovation projects where energy code does not apply.

(Continued)

ELECTRICAL SERVICE SCHEDULE NO. 115 (Continued)

INCENTIVE FOR ENERGY EFFICIENCY MEASURES: (Continued)

For existing fixtures, the baseline for all fluorescent lighting Energy Efficiency Measures not listed in incentive Table 1 shall be the lesser of existing equipment or the energy efficient magnetic ballast and energy saving lamp combination.

All EEM Costs are subject to Company review and approval prior to offering an Energy Efficiency Incentive Agreement. All final EEM Costs are subject to Company review and approval prior to paying an Energy Efficiency Incentive per the terms of the Energy Efficiency Incentive Agreement or approved Application. Company review and approval of EEM Costs may require additional documentation from the Customer or Owner.

The Owner or Customer may receive only one Energy Efficiency Incentive from the Company per EEM.

PROVISIONS OF SERVICE:

- (1) Company may elect to offer EEM incentives through different channels and at different points in the sales process other than individual Energy Efficiency Incentive Agreement(s) prior to EEM purchase. The differences will depend on EEM and will be consistent for all EEMs of similar type. Incentive requirements by EEM type and other terms and conditions will be available on the Idaho energy efficiency program section of the Company's web site. Changes in incentive requirements and/or terms and conditions may be changed by the Company with at least 45 days notice on the Idaho energy efficiency program section of the Company's web site. Customer/Owner has the option to receive a signed Energy Efficiency Incentive Agreement direct from the Company prior to purchase of eligible EEMs.
- (2) Company may offer payment as described in the Idaho energy efficiency program section of the Company web site to design team members to encourage early initial Company consultation on Owner/Customer design and plans for New Construction/Major Renovation.
