---

On June 22, 2016, Idaho Power Company filed an Application with the Commission to authorize it to implement an optional program, Schedule 63, Community Solar Pilot Program. Under the program, the Company proposes to build a 500 kilowatt (kW) single-axis tracking community solar array in southeast Boise that will allow a limited number of Idaho Power’s customers to subscribe to the generation output. Idaho Power asked that the case be processed by Modified Procedure.

The Commission issued a Notice of Application and Order setting a deadline for interested parties to intervene. Order No. 33552. The Commission received and granted petitions for intervention from Idaho Conservation League (ICL), Idaho Irrigation Pumpers Association (IIPA), Industrial Customers of Idaho Power (ICIP), Sierra Club, Snake River Alliance (SRA), and the City of Boise. Order Nos. 33552, 33557, 33560, 33562.

**PARTIES’ PROPOSED SCHEDULE**

These parties conferred informally and agreed to the following schedule under Modified Procedure:

August 23, 2016	Parties’ meeting to discuss negotiated solutions
September 1, 2016	Comment deadline for Parties
September 14, 2016	Company reply deadline

The Commission now issues the following Notice of Modified Procedure adopting the parties’ proposed schedule. Pursuant to Rule 202, we set a public comment deadline that allows interested persons 21 days from the service date of this Order to file comments with the Commission. The Company’s Application proposes a new program and we find that providing less than our standard 21-day comment period for public participation is not in the public

interest. The Parties mutually agreed to their schedule, but the public deserves a full and fair opportunity to participate.
